Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent software updates, go to <https://softwaresupport.hpe.com/patches>.

To verify that you are using the most recent edition of a document, go to <https://softwaresupport.hpe.com/manuals>.

This site requires that you register for an HPE Passport and sign in. To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

Support

Visit the HPE Software Support Online web site at <https://softwaresupport.hpe.com>.

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Access product documentation
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HPE Passport user and sign in. Many also require a support contract.

To register for an HPE Passport ID, go to <https://hpp12.passport.hpe.com/hppcf/login.do>.

To find more information about access levels, go to <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

Introduction

This document lists the certifications for the HPE Structured Data Manager release 7.52. The document is divided into the following sections:

- [Operating Systems](#)
- [Supported Browsers](#)
- [Databases](#)
- [Free Text Search](#)
- [Storage Adapters for Database to File Archiving](#)
- [Cloud Platforms](#)
- [Records Manager Targets](#)
- [Enterprise Applications](#)
- [Oracle E-business suite](#)
- [PeopleSoft Enterprise](#)

1. Operating Systems*†

Platform

Linux

Red Hat ES 6.5 Linux (x86-64)
Red Hat ES 6.8 Linux (x86-64)

Windows

Windows Server 2012 (x64)
Windows 8 (x64)
Windows 10 (x64)

Designer

Linux

Red Hat ES 6.8 Linux (x86-64)
Red Hat Enterprise Workstation 6.5 Linux (x86-64)

Windows

Windows Server 2012 (x64)
Windows 8 (x64)
Windows 10 (x64)

2. Supported Browsers

Internet Explorer

IE 11

Others

Chrome
Firefox

* If the UNIX, Linux or Windows operating system is not supported for a component of HPE Structured Data Manager, check with your HPE SDM Product Marketing/Management representative.

† Structured Data Manager software is certified with the Operating systems and will not be explicitly certified with any virtualization software

3. Databases ‡

Data Movement (archive & reload)

Oracle

Oracle 12c – including multitenant architecture (12.1.0.2 for Linux, 12.1.0.1 for Windows)
Oracle 11g (11.2.0.4)
Oracle 10g (10.2.0.4)
Oracle 9i (9.2.0.6)

SQL Server

SQL Server 2005 Enterprise Edition SP4
SQL Server 2008
SQL Server 2008 R2
SQL Server 2012
SQL Server 2014
SQL Server 2016

Vertica

Vertica 7.0.0 and Vertica JDBC driver 6.1.2 (as Archive target and Data Access ONLY)

Sybase

12.5 and 15.0 (DB to File ONLY)

DB2

9.7

JDBC

Any JDBC connection (DB to File ONLY)

For use as Repository

Oracle

Oracle 12c – including multitenant architecture (12.1.0.2 for Linux, 12.1.0.1 for Windows)
Oracle 11g (11.2.0.4)

SQL Server

SQL Server 2008 R2
SQL Server 2012
SQL Server 2014
SQL Server 2016

PostgreSQL

PostgreSQL 9.5

Archive Query Server Cache

PostgreSQL

PostgreSQL 9.5

‡ The source database from which and the target database to which you are archiving can be different instances on different machines. However, the archive source and target databases should be of the same technology, and the target database's version (including patch level) should be the same or higher than the source.

4. Free Text Search

IDOL

10.7

Solr

6.5.1

5. Storage Adapters for Database to File Archiving

Autonomy Archive

HPE Autonomy Consolidated Archive in cloud (Digital Safe) 7.8.2

6. Cloud Platforms

Amazon Simple Storage Service (Amazon S3)

7. Records Manager Targets

HPE Content Manager 9.1

HPE Content Manager 9.2

8. Masking Server

HPE SecureData Enterprise

9. Enterprise Applications

Oracle E-Business Suite

See [Integration Packs](#)

PeopleSoft Enterprise

See [Integration Packs](#)

10. Integration Packs

HPE Structured Data Manager software provides pre-built modules ('Integration Packs') for some of the Enterprise Applications. These Integration Packs allow for rapid implementation in environments running the Enterprise Applications, and address the most common high-growth areas in those applications.

Each Integration Pack supports a specific version of the supported Enterprise Application, as detailed in the tables below. If your version is not supported, please check with your HPE Structured Data Manager software Product Marketing/Management representative: pre-built modules can be made available according to demand. Additionally, HPE Software Professional Services Organization can deliver services-based solutions to address other areas with these Enterprise Applications, including custom tables.

Structured Data Manager Integration Packs for Oracle E-Business Suite

Database to Database modules for HPE Structured Data Manager release 7.51

E-Business suite R12

SDM 7.51 EBS Integration Pack certified on Oracle Database version 11.2.0.4, and 12.2.0.5
