

# Hybrid Cloud Management Express 2017.11

December 15, 2017

Hybrid Cloud Management provides a solution that allows you to build your private cloud and then expand into public and managed clouds.

The Next-Generation (NG) Express edition of the HCM suite offers the following benefits:

- Quick and easy container-based deployment, scaling, and management.
- Open and heterogeneous architecture to support any cloud platform.
- Design-once-order-anytime-run-anywhere cloud services, with cloud agnostic service design and advanced lifecycle management.
- Cloud Service Brokering that provides a streamlined, four-stage administrative experience that enables the subscribers to provision VMs in the cloud using MPP.

## Documentation

You can see the latest version of the complete documentation on the [Software Documentation Portal](#).

New features and enhancements in this release of HCM are described in the [Release Notes](#).
