MICRO FOCUS®

Network Node Manager i

2018.05
Released in June 2018

Network Node Manager i (NNMi) unifies fault, availability, and performance management for the network into a single, centralized console. NNMi Smart Plug-ins expand NNMi into specialized environments, helping your team reduce time to resolve issues.

For more information about NNMi, see https://software.microfocus.com/en-us/products/network-node-manager-i-network-management-software/overview.

Documentation

You can access the complete documentation on the Software Documentation Portal.
