# Additional License Authorizations

For Security ArcSight software products

**Additional License Authorizations**  
For Security ArcSight software products

## Products and suites covered

Products	E-LTU or E-Media available *	Perpetual License Non-production use category **	Term License Non-production use category (if available)
ArcSight Connector Appliance (previously called HPE ArcSight Connector Appliance)	Yes	Class 2	Class 3
ArcSight Connector Appliance Software (previously called HPE ArcSight Connector Appliance Software)	Yes	Class 2	Class 3
Security ArcSight Connector Hosting Appliance (previously called HPE Security ArcSight Connector Hosting Appliance)	Yes	Class 2	Class 3
Security ArcSight DNS Malware Analytics Appliance (previously called HPE Security ArcSight DNS Malware Analytics Appliance)	Yes	Class 3	Class 3
ArcSight Enterprise Security Manager (previously called HPE ArcSight Enterprise Security Manager)	Yes	Class 2	Class 3
ArcSight ESM Appliance (previously called HPE ArcSight ESM Appliance)	Yes	Class 2	Class 3
Security ArcSight ESM Appliance (previously called HPE Security ArcSight ESM Appliance)	Yes	Class 2	Class 3
Micro Focus ArcSight ESM Compliance Insight Packages (previously called HPE ArcSight ESM Compliance Insight Packages)	Yes	Class 1	Class 3
ArcSight ESM Console (previously called HPE ArcSight ESM Console)	Yes	Class 1	Class 3
Security ArcSight ESM Express (previously called HPE Security ArcSight ESM Express and HP ArcSight Express)	Yes	Class 2	Class 3
ArcSight ESM Web (previously called HPE ArcSight ESM Web)	Yes	Class 1	Class 3
ArcSight Enterprise System Connector for Service Manager (previously called HPE ArcSight Enterprise System Connector for HPE Service Manager)	Yes	Class 2	Class 3
ArcSight Express Virtual Appliance (previously called HPE ArcSight Express Virtual Appliance)	Yes	Class 2	Class 3
Micro Focus ArcSight Flex Connector Kit (previously called HPE ArcSight Flex Connector Kit)	Yes	Class 1	Class 3
ArcSight IdentityView (previously called HPE ArcSight IdentityView)	Yes	Class 1 & Class 3 ***	Class 3
ArcSight Interactive Discovery (previously called HPE ArcSight Interactive Discovery)	Yes	Class 3	Class 3
Micro Focus Security ArcSight Investigate (previously called HPE Security ArcSight Investigate)	Yes	Class 3	Class 3
Micro Focus ArcSight Logger Compliance Insight Packages (previously called HPE ArcSight Logger Compliance Insight Packages)	Yes	Class 1	Class 3
Micro Focus ArcSight Logger Software (previously called HPE ArcSight Logger)	Yes	Class 2	Class 3
Micro Focus ArcSight Management Center (previously called HPE ArcSight Management Center)	Yes	Class 2	Class 3
ArcSight Monitored Desktops (previously called HPE ArcSight Monitored Desktops)	Yes	Class 1	Class 3
ArcSight Monitored Devices (previously called HPE ArcSight Monitored Devices)	Yes	Class 1	Class 3

## Additional License Authorizations

For Security ArcSight software products

Products	E-LTU or E-Media available *	Perpetual License Non-production use category **	Term License Non-production use category (if available)
ArcSight Monitored Vulnerability Assessment Scans (previously called HPE ArcSight Monitored Vulnerability Assessment Scans)	Yes	Class 1	Class 3
ArcSight Network Configuration Manager (previously called HPE ArcSight Network Configuration Manager)	Yes	Class 2	Class 3
ArcSight Network Configuration Manager Audit Packages (previously called HPE ArcSight Network Configuration Manager Audit Packages)	Yes	Class 2	Class 3
Micro Focus Security ArcSight Reputation Security Monitor Plus	Yes	Class 1	Class 3
ArcSight Network Synergy Platform (previously called HPE ArcSight Network Synergy Platform)	Yes	Class 2	Class 3
Security ArcSight Secure Data Format Preserving Encryption Add-on for ArcSight Data Platform (previously called HPE Security ArcSight Secure Data Format Preserving Encryption Add-on for ArcSight Data Platform)	Yes	Class 1	Class 3
Micro Focus ArcSight Security Data Platform (previously called HPE ArcSight Security Data Platform)	Yes	Class 2	Class 3
ArcSight Standard Connectors (previously called HPE ArcSight Standard Connectors)	Yes	Class 1	Class 3
Micro Focus ArcSight Threat Detector (previously called HPE ArcSight Threat Detector and HP ArcSight Pattern Discovery)	Yes	Class 1	Class 3
ArcSight Threat Response Manager (previously called HPE ArcSight Threat Response Manager)	Yes	Class 2	Class 3
Security ArcSight with Hexadite Automated Incident Response Solution (previously called HPE Security ArcSight with Hexadite Automated Incident Response Solution)	Yes	Class 3	Class 3
Security ArcSight User Behavior Analytics	Yes	Class 2 ****	Class 3
Security ArcSight User Behavior Analytics Insight Packs	Yes	Class 2	Class 3

  

Suites	E-LTU or E-Media available *	Perpetual License Non-production use category **	Term License Non-production use category (if available)
ArcSight Enterprise Security Manager Suite (previously called HPE ArcSight Enterprise Security Manager Suite)	Yes	Class 2	Class 3
Micro Focus ArcSight Security Data Platform Suite (previously called HPE ArcSight Security Data Platform Suite)	Yes	Class 2	Class 3

\* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

\*\* Non-production use rights, if any, can be found at [software.microfocus.com/legal/software-licensing](https://software.microfocus.com/legal/software-licensing).

\*\*\* ArcSight Interactive Discovery v2 licenses are non-production Class 3, other ArcSight Interactive Discovery licenses are non-production Class 1.

\*\*\*\* Security ArcSight User Behavior Analytics term licenses are also classified Class 2.

**Note:** ArcSight Application View is covered in the ALA document for Security Fortify.

## Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

<b>Term</b>	<b>Definition</b>
Active Passive High Availability (APHA)	Means a local (directly connected to production instance) hot stand by system that uses disk level replication. Must be at the same capacity as the production instance.
Actor	Means a person who is being monitored by the software.
Appliance <i>or</i> Appl	Means an Instance of software loaded and pre-configured on a Server.
Application Server	Means a computer running software that executes business or application logic that is made available to a web server for processing requests. Application servers are typically J2EE applications servers or. Net application servers.
Asset	Means a single IT Device being imported or being created within the software.
Capture Module	Means DNS malware analytics appliance that captures, filters, and sends DNS packets to the cloud.
Cold Standby System	Means a standby non-production system which is NOT up and running. If the production system breaks down, or needs to be taken out of service, you are required to switch on and start the Cold Standby System in order to take over for the production system.
Concurrent Users <i>or</i> CC Users	Means the Software is licensed by the amount of users that simultaneously use the software at any one point in time. The software can be installed on any number of computers, provided that the actual usage of the software does not exceed the number of licenses purchased.
Collector <i>or</i> Coll	Means a data collection integration element to a certain software, Device format, Appliance or function through use of the Micro Focus software product. An Onboard Collector means software that resides on the Micro Focus ArcSight Appliance that communicates with your data center. A Remote Collector is software that resides on your computer that communicates with the Micro Focus ArcSight system.
Connector <i>or</i> Conn	Means a data collection and processing integration element to a certain software, Device format, Appliance or function through use of the Micro Focus software product. An Onboard Connector means software that resides on the Micro Focus ArcSight Appliance that communicates with your data center. A Remote Connector is software that resides on your computer that communicates with the Micro Focus ArcSight system.
Connector in Event Broker <i>or</i> CEB	Means data processing element to a certain software, Device format, Appliance or function through use of the Micro Focus software product.
Core	Means a part of a CPU that executes a single stream of compiled instruction code.
CPU	Means a system in a single integrated circuit package with one or more discrete processing Cores.
Desktop Device <i>or</i> DT Dev	Means a single Device such as a PC, laptop or handheld Device.
Development and Test Systems	Means a non-production system to be used for a) developing your add-on applications in order to access the licensed software b) migration testing c) pre-production staging or d) version upgrades/configurations and transition purposes.
Device <i>or</i> Dev	Means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
Domains <i>or</i> Dom <i>or</i> D	Means separately licensed features of ArcSight ESM that enables custom data set and fields.
E-LTU and E-Media	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
EndPoint	Means network, storage, servers, laptops, tablets, mobile devices and other wireless Devices connected to corporate networks.
EPS	Means events per second.

## Additional License Authorizations

For Security ArcSight software products

<b>Term</b>	<b>Definition</b>
Event Broker	Software component delivered by ArcSight which provides enterprise messages delivery bus and raw data normalization, enrichment technology for security operations
Flows Per Minute	Means flow events per minute (e.g. NetFlow, JFlow, SFlow).
GB	Means gigabytes which designates the amount of physical capacity that can be managed.
GB/per day <i>or</i> GB/d	Means gigabytes which designates the amount of physical capacity that can be collected during a twenty-four (24) hour period.
Guest Data	Any data that is posted on custom topics in ArcSight Event Broker, which is not processed by ArcSight Collectors, Connectors or Connectors in Event Broker, and is made available to consumers as a pass through without any modifications, filtering or routing done by Event Broker technologies.
High Availability <i>or</i> HA	Means Hot Standby System.
Hot Standby System	Means a non-production system which is up and running, ready to take over from the production system if the production system breaks down or needs to be taken out of service.
Micro Focus ArcSight Documentation	Means any written materials regarding the software specifications, development and test processes, formats, methodologies and practices provided by Micro Focus to you.
Implementation <i>or</i> Imp <i>or</i> IMP	Means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the Software.
Instance	Means each implementation of the application installed on a Server.
Key Server	Means a software appliance configured to provide key management and key derivation services per configurable policies.
LTU	Means License To Use.
MA	Means a software upgrade to an Appliance.
Monitored Applications <i>or</i> Mon App	Means software application from which the software collects logs.
Monitored Devices <i>or</i> Mon Dev	Means a device from which the software collects logs.
Monitored Desktops	Means Desktop Device from which the software collects logs.
Named User <i>or</i> Nmd User	Means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
NFR	Means a Not for Resale license which is limited to use by Micro Focus partners.
Nodes <i>or</i> Nd	Means a collection of network interfaces that the software can pragmatically associate together.
Non-Production <i>or</i> NP	Means internal use which is limited to Use on Development and Test Systems This NP license requires a concurrent or the previous purchase of the equivalent or greater production licenses. Support for NP licenses is restricted to the period of and current status of the equivalent production license.
NOLOG	Means that this Appliance does not include Micro Focus ArcSight Logger.
Peak EPS <i>or</i> PEPS	Means the peak rate of events per second (EPS) flowing into the system, computed as the maximum value of events per second collected over a period of 24 hours.
Server <i>or</i> SVR	Means any designated computer system in which an Instance or Instances of the software is installed.
Suite	Means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the Software Specific License Terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
Sustained EPS <i>or</i> SEPS	Means Average Sustained Events Per Second measured over a 24 hours period.
TB	Means terabytes which designates the amount of physical capacity that can be managed.

## Additional License Authorizations

For Security ArcSight software products

Term	Definition
Term License to Use or Term LTU	Means a software License To Use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTU's are not perpetual licenses.
Term Support	Means a fixed period support offering that is only valid during the time period of the associated Term LTU.
Unlimited or Unl	Means without restriction in terms of number of systems, devices or media, depending on the context.
User	Means a user whose Use is restricted to the type of software that is being licensed.
Vertica Stored Data	Means the uncompressed data that is stored in an Vertica database as if such uncompressed data had been exported from the database in text format.
Virtual Appliance or VA	Means Virtual Machine image designed to run on a virtualization platform (e.g., VirtualBox, Xen, VMware Workstation, Parallels Workstation).
Virtual Machine(s) or VM(s)	Means a computer that does not physically exist but is simulated by another computer.

## Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

### Security ArcSight Connector Hosting Appliance (previously called HPE ArcSight Connector Hosting Appliance)

Security ArcSight Connector Hosting Appliances are licensed as indicated in the table below:

Appliance	Offering Includes
Security ArcSight Connector Hosting Appliance C6600 Server	▪ Gen 9 HW supporting up to 25,000 EPS. Runs ArcSight Management Center software (ArcMC) with support for 32 onboard connectors, Remote management for connectors and supported ArcSight products. Limited only by HW capacity.

### Security ArcSight DNS Malware Analytics Appliance (previously called HPE Security ArcSight DNS Malware Analytics Appliance)

Security ArcSight DNS Malware Analytics (DMA) Capture Module is licensed by the number of Users. This requires customers to have an active Security ArcSight DNS Malware Analytics SaaS Subscription. Security ArcSight DNS Malware Analytics Appliances are licensed as indicated in the table below:

Appliance	Offering Includes
Security ArcSight DNS Malware Analytics (DMA) Capture Module Appliance D3600 - 10k Users	▪ Gen 9 HW supporting up to 10,000 Users.
Security ArcSight DNS Malware Analytics (DMA) Capture Module Appliance D8600 - 50k Users	▪ Gen 9 HW supporting up to 50,000 Users.

## Additional License Authorizations

For Security ArcSight software products

### ArcSight Enterprise Security Manager (previously called HPE ArcSight Enterprise Security Manager)

ArcSight Enterprise Security Manager (ESM) is either licensed per Core, per GB/per day or per SEPS. The following ArcSight Enterprise Security Manager Suites are licensed by GB/per day:

Suite	Offering Includes
ArcSight Enterprise Security Manager Suite 20 GB per day	<ul style="list-style-type: none"><li>▪ 1 ArcSight Enterprise Security Manager 20 GB per day</li><li>▪ 100 ArcSight Monitored Devices</li><li>▪ 10 ArcSight Enterprise Security Manager Web Users</li><li>▪ 2 ArcSight Enterprise Security Manager Console Users</li><li>▪ 10,000 ArcSight Monitored Vulnerability Assessment Scans Nodes</li><li>▪ 50 Actors</li><li>▪ 4 ArcSight Connector Appliance Connectors</li></ul>
ArcSight Enterprise Security Manager Suite 50 GB per day	<ul style="list-style-type: none"><li>▪ 1 ArcSight Enterprise Security Manager 50 GB per day</li><li>▪ 250 ArcSight Monitored Devices</li><li>▪ 25 ArcSight Enterprise Security Manager Web Users</li><li>▪ 3 ArcSight Enterprise Security Manager Console Users</li><li>▪ 10,000 ArcSight Monitored Vulnerability Assessment Scans Nodes</li><li>▪ 50 Actors</li><li>▪ 4 ArcSight Connector Appliance Connectors</li></ul>
ArcSight Enterprise Security Manager Suite 100 GB per day	<ul style="list-style-type: none"><li>▪ 1 ArcSight Enterprise Security Manager 100 GB per day</li><li>▪ 500 ArcSight Monitored Devices</li><li>▪ 25 ArcSight Enterprise Security Manager Web Users</li><li>▪ 3 ArcSight Enterprise Security Manager Console Users</li><li>▪ 10,000 ArcSight Monitored Vulnerability Assessment Scans Nodes</li><li>▪ 50 Actors</li><li>▪ 4 ArcSight Connector Appliance Connectors</li></ul>
ArcSight Enterprise Security Manager Suite 150 GB per day	<ul style="list-style-type: none"><li>▪ 1 ArcSight Enterprise Security Manager 150 GB per day</li><li>▪ 500 ArcSight Monitored Devices</li><li>▪ 25 ArcSight Enterprise Security Manager Web Users</li><li>▪ 3 ArcSight Enterprise Security Manager Console Users</li><li>▪ 10,000 ArcSight Monitored Vulnerability Assessment Scans Nodes</li><li>▪ 50 Actors</li><li>▪ 4 ArcSight Connector Appliance Connectors</li></ul>
ArcSight Enterprise Security Manager Suite 250 GB per day	<ul style="list-style-type: none"><li>▪ 1 ArcSight Enterprise Security Manager 250 GB per day</li><li>▪ 500 ArcSight Monitored Devices</li><li>▪ 25 ArcSight Enterprise Security Manager Web Users</li><li>▪ 3 ArcSight Enterprise Security Manager Console Users</li><li>▪ 10,000 ArcSight Monitored Vulnerability Assessment Scans Nodes</li><li>▪ 50 Actors</li><li>▪ 4 ArcSight Connector Appliance Connectors</li></ul>

ArcSight Enterprise Security Manager software can be augmented in increments of 5 GB/per day as described below:

License	Offering Includes
Add-On 5GB/d	<ul style="list-style-type: none"><li>▪ ArcSight Enterprise Security Manager ingesting an additional 5 GB/per day.</li></ul>

## Additional License Authorizations

For Security ArcSight software products

The following ArcSight Enterprise Security Manager products are licensed by SEPS and require the concurrent or prior purchase of ArcSight Security Data Platform or Security ArcSight Security Data Platform of the appropriate capacity of the deployment environment:

Software Package	Offering Includes
ArcSight ESM 250 EPS	<ul style="list-style-type: none"><li>1 ArcSight Enterprise Security Manager server limited to 250 SEPS.</li><li>Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
ArcSight ESM 1000 EPS	<ul style="list-style-type: none"><li>1 ArcSight Enterprise Security Manager server limited to 1000 SEPS.</li><li>Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
ArcSight ESM 2500 EPS	<ul style="list-style-type: none"><li>1 ArcSight Enterprise Security Manager server limited to 2500 SEPS.</li><li>Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
ArcSight ESM 5000 EPS	<ul style="list-style-type: none"><li>1 ArcSight Enterprise Security Manager server limited to 5000 SEPS.</li><li>Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets</li></ul>
ArcSight ESM 10000 EPS	<ul style="list-style-type: none"><li>1 ArcSight Enterprise Security Manager server limited to 10000 SEPS.</li><li>Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>

## ArcSight Enterprise System Connector for Service Manager (previously called HPE ArcSight Enterprise System Connector for HPE Service Manager)

ArcSight Enterprise System Connector for Service Manager is provided as part of ArcSight Enterprise Security Manager or ArcSight ESM Express licenses. It is designed to facilitate communicate between ArcSight Enterprise Security Manager and Service Manager.

## Security ArcSight ESM Appliance (previously called HPE Security ArcSight ESM Appliance)

Security ArcSight ESM Appliance is sold as an Appliance and is licensed by SEPS and require the concurrent or prior purchase of ArcSight Security Data Platform or Security ArcSight Security Data Platform of the appropriate capacity of the deployment environment:

Appliance	Offering Includes
Security ArcSight E7600 Server – 250 EPS	<ul style="list-style-type: none"><li>250 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
Security ArcSight E7600 Server – 1000 EPS	<ul style="list-style-type: none"><li>1,000 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
Security ArcSight E7600 Server – 2500 EPS	<ul style="list-style-type: none"><li>2,500 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
Security ArcSight E7600 Server – 5000 EPS	<ul style="list-style-type: none"><li>5,000 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>
Security ArcSight E7600 Server – 10000 EPS	<ul style="list-style-type: none"><li>10,000 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets.</li></ul>

## Additional License Authorizations

For Security ArcSight software products

---

ArcSight ESM Appliance capacity can be augmented in increments of 50 EPS as follows up to 10000 EPS per appliance:

<b>Add-on</b>	<b>Offering Includes</b>
Add-On 50 EPS	▪ ArcSight ESM ingesting an additional 50 SEPS.

---

## Micro Focus ArcSight ESM Compliance Insight Packages (previously called HPE ArcSight ESM Compliance Insight Packages)

Micro Focus ArcSight ESM Compliance Insight Packages are licensed by Implementation of ArcSight Enterprise Security Manager.

## ArcSight ESM Console, ArcSight ESM Web and ArcSight ESM Viewer (previously called HPE ArcSight ESM Console, HPE ArcSight ESM Web and HPE ArcSight ESM Viewer)

ArcSight ESM Console, ArcSight ESM Web and ArcSight ESM Viewer are licensed by the number of Users set forth in the applicable order(s) for the products.

## Security ArcSight ESM Express (previously called HPE Security ArcSight ESM Express and HP ArcSight Express)

Security ArcSight ESM Express is sold as an Appliance and is licensed by SEPS, up to 2500 SEPS, with offerings as described below:

<b>Appliance</b>	<b>Offering Includes</b>
Security ArcSight EE7600 Server – 250 EPS	▪ 250 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets ▪ Use of Connectors and the Flex Connector kit.
Security ArcSight EE7600 Server – 1000 EPS	▪ 1,000 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets ▪ Use of Connectors and the Flex Connector kit.
Security ArcSight EE7600 Server – 2500 EPS	▪ 2,500 SEPS with Unlimited Monitored Devices, Console Users, Web Users, Vulnerability Assessment Scans Nodes, Actors and Assets ▪ Use of Connectors and the Flex Connector kit.

---

Security ArcSight ESM Express appliance capacity can be augmented in increments of 50 EPS, to 2500 EPS per appliance as described below:

<b>Add-on</b>	<b>Offering Includes</b>
Add-On 50 EPS	▪ Security ArcSight ESM Express ingesting an additional 50 SEPS

---

## ArcSight Express Virtual Appliance (previously called HPE ArcSight Express Virtual Appliance)

For ArcSight Express Virtual Appliance (AEVA), which includes 250 SEPS additional SEPS can be purchased, up to a maximum of 1,250 SEPS.

<b>Virtual appliance</b>	<b>Offering Includes</b>
AE 250 SEPS Add-on Software	▪ ArcSight Express Virtual Appliance ingesting an additional 250 SEPS.

---

## **Micro Focus ArcSight Flex Connector Kit (previously called HPE ArcSight Flex Connector Kit)**

Micro Focus ArcSight Flex Connector Kit is a software development product (“SDK”) that allows you to Use the software’s object code to configure a Connector that can only be used to monitor Devices not supported by Micro Focus ArcSight software (“Flex Connector”). Flex Connectors shall be used solely with the Micro Focus ArcSight software and use with any other software or other technology for any purpose including, without limitation, Device monitoring, is expressly prohibited. Your license to use the Flex Connectors expires upon termination or expiration of your Micro Focus ArcSight software license.

When the Micro Focus ArcSight Flex Connector Kit is purchased in conjunction with one of Operations Analytics Express Edition, Operations Analytics Premium Edition or Operations Analytics Ultimate Edition, you must have an Operations Analytics Express Edition, Operations Analytics Premium Edition or Operations Analytics Ultimate Edition Node license for each Device that will run the Flex Connectors created using the Micro Focus ArcSight Flex Connector Kit. Flex Connectors shall be owned by Micro Focus and used solely with the Operations Analytics Express Edition, Operations Analytics Premium Edition or Operations Analytics Ultimate Edition software and use with any other software or other technology for any purpose including, without limitation, Device monitoring, is expressly prohibited. Your license to use the Flex Connectors expires upon termination or expiration of your Operations Analytics Express Edition, Operations Analytics Premium Edition or Operations Analytics Ultimate Edition license. For any Device that runs a Flex Connector created using the Micro Focus ArcSight Flex Connector Kit, you must have either an Operations Analytics Express Edition, Operations Analytics Premium Edition or Operations Analytics Ultimate Edition Node license, or a Micro Focus ArcSight Device license, but not both.

## **ArcSight Interactive Discovery (previously called HPE ArcSight Interactive Discovery)**

ArcSight Interactive Discovery is licensed by Instance and includes a license for Advizor which is licensed in accordance with the applicable Micro Focus Terms and conditions and can only be used with ArcSight ESM and ArcSight ESM Express and ArcSight Logger.

## **Micro Focus Security ArcSight Investigate (previously called HPE Security ArcSight Investigate)**

Micro Focus Security ArcSight Investigate is licenses as indicated below.

<b>License</b>	<b>Offering Includes</b>
5GB/d	<ul style="list-style-type: none"><li>▪ Micro Focus Security ArcSight Investigate software with capacity of 5GB per day</li><li>▪ 2TB of Vertica Stored Data</li></ul>

Micro Focus Security ArcSight Investigate includes a limited License To Use (LTU) Vertica Premium Edition, only as integrated in and in conjunction with Micro Focus Security ArcSight Investigate. This LTU does not permit the use of Vertica Premium Edition on a standalone basis, such as but not limited to, using third-party business intelligence tools, loading data directly into the database, or performing ad hoc queries independent of Micro Focus Security ArcSight Investigate.

Micro Focus **Security ArcSight Investigate Data Access Add-on** includes a limited License To Use (LTU) 3rd party visualization and reporting tools to analyse ArcSight Investigate schema and data stored on the embedded Vertica Premium Edition database, solely for security operations.

This LTU does not permit the use of Vertica Premium Edition on a standalone basis, such as but not limited to, loading non ArcSight data directly into the Vertica Premium Edition database (i.e. not through ArcSight Investigate). This LTU does not permit the use of the embedded Vertica Premium Edition database for non-security use cases, such as but not limited to, IT operations, risk management, marketing or general BI analysis.

**Additional License Authorizations**  
For Security ArcSight software products

---

### **Micro Focus ArcSight Logger (previously called HPE ArcSight Logger)**

As of April 2014, Micro Focus ArcSight Logger is licensed as indicated below.

<b>License</b>	<b>Offering Includes</b>
5GB/d	▪ Micro Focus ArcSight Logger collecting up to 5GB/per day.
Add-On 5GB/d	▪ Micro Focus ArcSight Logger collecting up to an additional 5GB/per day (up to a maximum total of 500 GB/per day per Logger Instance).

For purchases until April 2014, Micro Focus ArcSight Logger software is licensed per GB/per day and per Device as indicated below.

<b>License</b>	<b>Offering Includes</b>
5 GB/d, 50 Dev	▪ Micro Focus ArcSight Logger collecting up to 5GB/per day from a maximum of 50 Devices, total searchable space 250 GB per Instance.
30 GB/d, 200 Dev	▪ Micro Focus ArcSight Logger collecting up to 30GB/per day from a maximum of 200 Devices, total searchable space 800 GB per Instance.
80 GB/d, 500 Dev	▪ Micro Focus ArcSight Logger collecting up to 80GB/per day from a maximum of 500 Devices, total searchable space 4.2 TB per Instance.
160 GB/d, unl Dev	▪ Micro Focus ArcSight Logger collecting up to 160GB/per day from Unlimited Devices, total searchable space 4.2 TB per Instance.
250 GB/d, unl Dev	▪ Micro Focus ArcSight Logger collecting up to 250GB/per day from Unlimited Devices, total searchable space 4.2 TB per Instance.

### **Micro Focus ArcSight Logger Compliance Insight Packages (previously called HPE ArcSight Logger Compliance Insight Packages)**

Micro Focus ArcSight Logger Compliance Insight Packages are licensed by Implementation of ArcSight Logger.

### **Micro Focus ArcSight Management Center (previously called HPE ArcSight Management Center)**

Micro Focus ArcSight Management Center is licensed by Connector and limited to use with a Micro Focus ArcSight Product.

### **ArcSight Monitored Application User (previously called HPE ArcSight Monitored Application User)**

ArcSight Monitored Application Users are the aggregate number of Users per application as set forth in the applicable order(s) for products.

### **ArcSight Monitored Devices (previously called HPE ArcSight Monitored Devices)**

ArcSight Monitored Devices is licensed per Monitored Devices solely (a) to collect data from the aggregate number of network, security and server Devices, and (b) solely with the aggregate number of Users per application.

### **ArcSight Monitored Desktops (previously called HPE ArcSight Monitored Desktops)**

ArcSight Monitored Desktops is licensed per Desktop Device.

**Additional License Authorizations**  
For Security ArcSight software products

---

**ArcSight Monitored Vulnerability Assessment Scans (previously called HPE ArcSight Monitored Vulnerability Assessment Scans)**

ArcSight Monitored Vulnerability Assessment Scan is licensed per Node and is used solely to collect data from the aggregate number of Devices set forth in applicable order for products.

**Micro Focus Security ArcSight Reputation Security Monitor Plus**

Micro Focus Security ArcSight Reputation Security Monitor Plus is licensed by Implementation.

**Micro Focus ArcSight Security Data Platform (previously called HPE ArcSight Security Data Platform)**

Micro Focus Security ArcSight Security Data Platform software is licensed by GB/per day ingested.

Suite	Offering Includes
Micro Focus ArcSight Security Data Platform 5GB/per day	<ul style="list-style-type: none"><li>▪ 5 GB/per day ingestion into connectors or Connector in Event Broker.</li><li>▪ 1 Micro Focus ArcSight Logger software Server license.</li><li>▪ 1 Micro Focus ArcSight Management Center software Server license with remote management for Connectors and supported ArcSight products limited only by HW capacity.</li><li>▪ Smart Connectors.</li><li>▪ Micro Focus ArcSight Flex Connector Kit.</li><li>▪ License to forward 5 GB/per day to third party software.</li><li>▪ 5 GB/Day of Guest Data-only posted into Event Broker by 3<sup>rd</sup> party systems and consumed from Event Broker by 3<sup>rd</sup> party systems, separate from the licensed capacity.</li></ul>

---

Micro Focus Security ArcSight Security Data Platform software can be augmented in increments of 5 GB/per day, to 500 GB/per day per server as described below:

License	Offering Includes
Add-On 5GB/d	<ul style="list-style-type: none"><li>▪ 5 GB/per day added capacity for ingestion into connectors or Connector in Event Broker.</li><li>▪ License to forward additional 5 GB/per day to third party software.</li><li>▪ 5 GB/Day of Guest Data-only posted into Event Broker by 3<sup>rd</sup> party systems and consumed from Event Broker by 3<sup>rd</sup> party systems, separate from the licensed capacity.</li></ul>

---

Micro Focus Security ArcSight Security Data Platform Appliances are licensed as indicated in the table below:

Appliance	Offering Includes
Security ArcSight Security Data Platform L7600 Appliance	<ul style="list-style-type: none"><li>▪ 1 ArcSight Logger L7600 with 5 GB/per day ingestion into Connectors or Connector in Event Broker. Additional GB/per day capacity can be purchased separately up to 250 GB/per day per Appliance.</li><li>▪ 1 ArcSight Logger software Server license.</li><li>▪ 1 ArcSight Management Center software Server license with remote management for Connectors and supported ArcSight products limited only by HW capacity.</li><li>▪ Smart Connectors.</li><li>▪ Micro Focus ArcSight Flex Connector Kit.</li><li>▪ License to forward 5 GB/per day to third party software.</li><li>▪ 5 GB/Day of Guest Data-only posted into Event Broker by 3<sup>rd</sup> party systems and consumed from Event Broker by 3<sup>rd</sup> party systems, separate from the licensed capacity.</li></ul>

---

**Note:** The license restrictions above are also applicable to the HA, NP, NFR versions of these appliance and software products. The capacity for the Security Data Platform is solely based on the production node(s). The capacity for the individual HA, NP, NFR appliance and software products is not applicable.

## Additional License Authorizations

For Security ArcSight software products

Security ArcSight Security Data Platform Appliances can be augmented in increments of 5 GB/per day as described below:

License	Offering Includes
Add-On 5GB/per day L7600	<ul style="list-style-type: none"><li>5 GB/per day added capacity for up to a maximum of 250 GB/per day per Security ArcSight Security Data Platform L7600 Appliance.</li><li>License to forward 5 GB/per day to third party software.</li><li>5 GB/Day of Guest Data-only posted into Event Broker by 3<sup>rd</sup> party systems and consumed from Event Broker by 3<sup>rd</sup> party systems, separate from the licensed capacity.</li></ul>

### Micro Focus ArcSight Standard Connectors (previously called HPE ArcSight Standard Connectors)

ArcSight Standard Connectors are software modules provided as part of ArcSight ESM (if licensed by GB/per day or CPU cores, Express or ArcSight Security Data Platform or Logger licenses. Standard Connectors are designed to fetch data from Servers or other event sources in customer environments, normalize that data, and feed it into additional Micro Focus ArcSight products, unless included as part of the ArcSight Security Data Platform license, connectors may not be used to feed event data into any non-Micro Focus ArcSight products.

### Micro Focus ArcSight Threat Detector (previously called HPE ArcSight Threat Detector and HP ArcSight Pattern Discovery)

ArcSight Threat Detector is a software add-on for ArcSight Enterprise Security Manager. ArcSight Threat Detector is licensed by ESM Core, by GB/per day or by EPS (licensing depends on which product or Suite adding onto).

### ArcSight Threat Response Manager (previously called HPE ArcSight Threat Response Manager)

ArcSight Threat Response Manager is licensed by Device per Virtual Appliance.

### Security ArcSight with Hexadite Automated Incident Response Solution (previously called HPE Security ArcSight with Hexadite Automated Incident Response Solution)

Security ArcSight with Hexadite Automated Incident Response Solution is licensed by EndPoint.

### Security ArcSight Secure Data Format Preserving Encryption Add-On for ArcSight Data Platform

ArcSight Secure Data Format Preserving Encryption Add-On for ArcSight Data Platform are licensed as indicated in the table below. This requires customers to have up to same amount of GB/per day of Secure Data FPE for ArcSight Data Platform (ADP).

License	Offering Includes
Security ArcSight Secure Data Format Preserving Encryption Add-on for ADP 5GB/day Base	<ul style="list-style-type: none"><li>Licensed to use of one instance of Secure Data Key Server for every 5GB/day base of ArcSight Secure Data Format Preserving Encryption Add-On for ArcSight Data Platform.</li><li>License to forward 5 GB/per day to third party software.</li></ul>

ArcSight Secure Data Format Preserving Encryption Add-On for ArcSight Data Platform software can be augmented in increments of 5 GB per day as described below:

License	Offering Includes
5GB/day Add-on	<ul style="list-style-type: none"><li>Security ArcSight Secure Data Format Preserving Encryption Add on for ADP 5 GB/per day Add-on</li></ul>

## Security ArcSight User Behavior Analytics

**Security ArcSight User Behavior Analytics Foundation** and **Security ArcSight User Behavior Analytics Premium Solutions** are licensed per Actor with the following tiers: 1,000 Actors, 5,000 Actors, 10,000 Actors, 30,000 Actors, 50,000 Actors, and 100,000 Actors. Additional Actors can be purchased at 1,000 Actors increment, which can only be used for license capacity extension.

**Security ArcSight User Behavior Analytics Foundation** requires at least one of the following Solutions for the same Foundation tiers. The Solution tier and number of Actors must match the Foundation tier and number of Actors. Security ArcSight User Behavior Analytics Foundation includes Security ArcSight User Behavior Analytics Lieberman and Cyber Arc Insight Pack (only available in User Behavior Analytics 5.0).

- Security ArcSight User Behavior Analytics High Privilege Accounts
- Security ArcSight User Behavior Analytics Access
- Security ArcSight User Behavior Analytics Data Exfiltration
- Security ArcSight User Behavior Analytics Entity
- Security ArcSight User Behavior Analytics Cloud

**Security ArcSight User Behavior Analytics Premium Solutions** includes Security ArcSight User Behavior Analytics Foundation and all five Solutions above (the Cloud Solution is included in User Behavior Analytics 6.10 and higher).

## Security ArcSight User Behavior Analytics Insight Packs

Security ArcSight User Behavior Analytics Insight Packs are optional add-ons for Security ArcSight User Behavior Analytics Foundation and Security ArcSight User Behavior Analytics Premium Solutions. Security ArcSight User Behavior Analytics Insight Packs are licensed based on Instance. The same Insight Pack Instance(s) cannot be deployed on different Foundation or Premium Solutions Instances. One or more Insight Packs can be used with the same Security ArcSight User Behavior Analytics Foundation and Security ArcSight User Behavior Analytics Premium Solutions Instance.

- Security ArcSight User Behavior Analytics AWS Insight Pack Instance
- Security ArcSight User Behavior Analytics Box Insight Pack Instance
- Security ArcSight User Behavior Analytics Cerner Insight Pack Instance
- Security ArcSight User Behavior Analytics EPIC Insight Pack Instance
- Security ArcSight User Behavior Analytics Google Apps Insight Pack Instance

## Additional license terms

Term	
A. Complete Product	You shall install and use the software as authorized in the applicable agreement and this ALA only as a complete product and may not use portions of such software on a standalone basis separate from the complete software or separate from the Server if delivered as an Appliance unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
B. Additional Software License terms	You shall not access the embedded Oracle database or any other third-party product embedded in the Micro Focus ArcSight software with applications other than the Micro Focus ArcSight software.

---

**Additional License Authorizations**  
For Security ArcSight software products

---

	<b>Term</b>
C. Performance Information	You will not (and will not instruct, authorize or allow any third party to) publicly disseminate any performance information or analysis (including, without limitation, benchmarks and performance tests) from any source relating to the software.
D. Security and Network Acknowledgements	You acknowledge and agree that the software (i) accumulates and organizes security information that, in the wrong hands, could serve as a blueprint of your security system and its vulnerabilities and that any disclosure of such information could result in substantial harm to you and others. You will be solely responsible for any disclosure of such information; and (ii) is designed to give the user emergency administrator-level control over your computer network, with the ability to dynamically reconfigure or disable network infrastructure devices, change network topology and exclude network access. Such networking products should be used only by users who have been trained in the use of such networking products. Improper use of such networking products may result in significant network damage or downtime. You assume all risks associated with the operation of such networking products.
E. Additional third party terms	You shall not ( and will not instruct, authorize or allow any third party to ) create, modify, change the behavior of, classes, interfaces, or sub packages that are in any way identified as “java”, “javax”, “sun” or similar convention as specified by Oracle ® in any naming convention designation. In the event that you create an additional API(s) which: (a) extends the functionality of a Java Environment; and (b) is exposed to third party software developers for the purpose of developing additional software which invokes such additional API, you must promptly publish broadly an accurate specification for such API for free use by all developers. Oracle and Java Trademarks and Logos. You may not use an Oracle America, Inc. name, trademark, service mark, logo or icon. You acknowledge that Oracle owns the Java trademark and all Java-related trademarks, logos and icons including the Coffee Cup and Duke (“Java Marks”) and agrees to: (a) comply with the <a href="#">Java Trademark Guidelines</a> ; (b) not to do anything harmful to or inconsistent with Oracle’s rights in the Java Marks; and (c) assist Oracle in protecting those rights, including assigning to Oracle any rights acquired by you in any Java Mark. Source Code. Software may contain source code that, unless expressly licensed for other purposes, is provided solely for reference purposes pursuant to the terms of your license. Source code may not be redistributed unless expressly provided for in the terms of your license. Third Party Code. Additional copyright notices and license terms applicable to portions of the software are set forth in the Third Party Copyright Notices and License terms and the THIRDPARTYLICENSEREADME.txt file contained therein that can be accessed from the ancillary.txt file or user documentation.
F. Additional Confidentiality Terms	<p>The software, Micro Focus ArcSight Documentation and technical information and other code or data of any type provided by Micro Focus (or its agents), are Micro Focus Confidential Information or the confidential information of third parties without any marking or further designation (“Confidential Information”). You will hold in confidence and not use or disclose any Confidential Information, except as expressly permitted in the Agreement and this ALA.</p> <p>Your nondisclosure obligation will not apply to information which you can document: (i) was rightfully in its possession or known to it prior to receipt of the Confidential Information; (ii) is or has become public knowledge through no fault of you (iii) is rightfully obtained by you from a third party without breach of any confidentiality obligation; or (iv) is independently developed by employees or contractors of you who had no access to such information.</p> <p>You will not disclose such Confidential Information to any third party except to those of its employees and contractors that need to know such Confidential Information for the purpose of Using the software, provided that each such employee and contractor is subject to a written agreement that includes binding use and disclosure restrictions that are at least as protective as those set forth herein. You will use all reasonable efforts to maintain the confidentiality of all such Confidential Information in its possession or control, but in no event less than the efforts that you ordinarily use with respect to its own proprietary information of similar nature and importance. The foregoing obligations will not restrict you from disclosing Confidential Information of the other party: (i) pursuant to the order or requirement of a court, administrative agency or tribunal or other governmental body, provided that the party required to make such a disclosure gives reasonable written notice to the other party to contest such order or requirement; and (ii) on a confidential basis to its legal or financial advisors.</p>

---

## Additional License Authorizations

For Security ArcSight software products

---

	<b>Term</b>
G. Logger Back-ups	The archiving functionality of Micro Focus ArcSight Logger must be enabled in order for the product to back up data on a daily basis. In the unanticipated event in which data corruption occurs, the backup data will help you to restore the data for search and reporting purposes.
H. Limitation of Liabilities and Remedies	IN NO EVENT WILL MICRO FOCUS'S LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, OR CONSEQUENTIAL COSTS OR DAMAGES OF ANY KIND OR FOR ANY DOWNTIME COSTS; LOST BUSINESS, REVENUES, OR PROFITS; FAILURE TO REALIZE EXPECTED SAVINGS; LOSS OR UNAVAILABILITY OF OR DAMAGE TO DATA; OR SOFTWARE RESTORATION WHETHER OR NOT THAT PARTY WAS AWARE OR SHOULD HAVE BEEN AWARE OF THE POSSIBILITY OF SUCH COSTS, EXPENSES, OR DAMAGES. IN ADDITION, ORACLE WILL NOT BE LIABLE FOR DIRECT DAMAGES CAUSED BY ITS DATABASE SOFTWARE. MICRO FOCUS DISCLAIMS RESPONSIBILITY FOR ANY DATA LOSS IN THE EVENT OF A HARDWARE FAILURE. HARDWARE MUST BE CONTINUALLY MONITORED TO IDENTIFY IMMINENT DISK FAILURES AS EARLY AS POSSIBLE AND TO ALLOW FOR APPROPRIATE MEASURES TO BE TAKEN TO MINIMIZE THE LIKELIHOOD OF DATA LOSS.
I. Additional Governing Law Terms	The provisions of the Uniform Computer Information Transactions Act shall not apply to any license of the Micro Focus ArcSight products.
