Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

You can check for more recent versions of a document through the [MySupport portal](#). Many areas of the portal, including the one for documentation, require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in.

Additionally, if you subscribe to the appropriate product support service, you will receive new or updated editions of documentation. Contact your Micro Focus sales representative for details.

Support

Visit the [MySupport portal](#) to access contact information and details about the products, services, and support that Micro Focus offers.

This portal also provides customer self-solve capabilities. It gives you a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the MySupport portal to:

- Search for knowledge documents of interest
- Access product documentation
- View software vulnerability alerts
- Enter into discussions with other software customers
- Download software patches
- Manage software licenses, downloads, and support contracts
- Submit and track service requests
- Contact customer support
- View information about all services that Support offers

Many areas of the portal require you to sign in with a Software Passport. If you need a Passport, you can create one when prompted to sign in. To learn about the different access levels the portal uses, see the [Access Levels descriptions](#).

VEO Format Files

Background

PROV - Public Record Office Victoria

The Victorian Government Agency that issues standards for the management of public records. PROV also issued the VERS standard.

For more information, see <http://prov.vic.gov.au/>

VERS - Victorian Electronic Records Strategy

The VERS specifies a standard format for electronic records.

See <https://www.prov.vic.gov.au/recordkeeping-government/a-z-topics/vers> for more information.

VEO - VERS Encapsulated Object

The VERS standard electronic record format VEO files can be used as a mechanism to transfer records between different record keeping systems.

A VEO file is created from a record, in this case a Content Manager record and using the Content Manager client or Content Manager Rendering module, and contains both the record content and the associated metadata

For detailed information about the VERS standard electronic record format, see

<https://www.prov.vic.gov.au/recordkeeping-government/about-standards-framework-policies/vers-standard/vers-version-2>

Creating VEO Format Files

Creating a VEO file within Content Manager

1. In Content Manager, from the **Manage** ribbon, in the **Archiving** group, click **Create VEOs**. The **Create VEO files** dialog appears.

Create VEO files

VEO Generation

Consignment: 1

Output location: 

Files Per Folder: 50

Certificate Store: MY

Certificate:

VERS Settings

Signature Format Description: The contents of this VEO are signed using the SHA-1 hash algorithm and the RSA

Signature Algorithm Id: 1.2.840.113549.1.1.5

Corporate Name: Micro Focus

Language: EN

Agency ID: 1

Series ID: 1

File ID: 10

Manifest

Consignment Type: P

Job ID: AA 1111/2222

OK Cancel Help

1. Fill in the fields:
 - a. **Consignment** – type in the Content Manager consignment number. It is usually allocated by a receiving archive authority before transferring the records and then manually entered in Content Manager. See also **Content Manager Help > Retention Schedules and disposal of records > Using Retention Schedules with records > Changing record disposition > Disposal action for selected Records dialog box > Disposal tab**.
 - b. **Output location** – browse to, and select, the folder to save the new VEO files in.
 - c. **Files per Folder** – type, or select, the number of VEOs that should be in a single folder in the output location.

- d. **Certificate Store** – certificate store that contains the certificate to create this batch of VEO files.
- e. **Certificate** - name of the certificate that will be used for this batch of VEO files.

VEO will only accept certificates that are validated from a trusted source and VERS certificate compliance is ensured by the Public Record Office Victoria.

For more information about the VERS standard, refer to
<https://www.prov.vic.gov.au/recordkeeping-government/a-z-topics/vers>

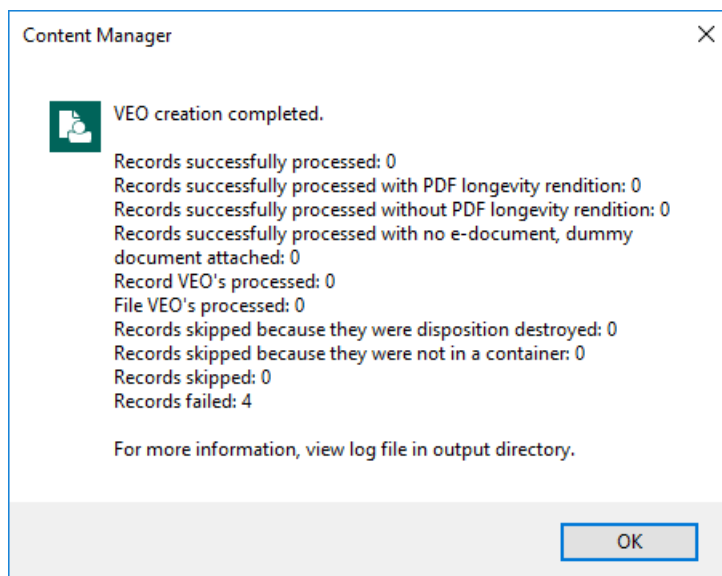

- 2. Fill in the required fields for the:

- **VERS settings**
- **Manifest details**

- 3. Click **OK**

Content Manager creates one VEO file for each record in the consignment.

A confirmation message appears, for example:

To view specific information about these files, view the log files:

- The batch log file in the same location as the VEO files
- **TRIMRenderVers.log** in the defined Output location

Creating a VEO file from a Consignment in Content Manager

NOTE:

Creating a VEO file in Content Manager can only be done for Consignments that have a type of **Archive (Custody Transfer)** and that have been created using the Advanced Disposal of records feature in Content Manager

1. In Content Manager, from the **Manage** ribbon, in the **Archiving** group, click **Consignments**. The **Consignments** window appears.
2. Right-click the approved Consignment, point to **Dispose** and then click **Create VEO Object**. The **Create VEOs** screen appears.
3. Follow the steps in [Creating VEOs](#) to complete the VEO creation process.
