

Data Protector 2019.12

Released in December 2019

Micro Focus Data Protector is an enterprise-grade backup and disaster recovery solution for large, complex, and heterogeneous IT environments. Built on an adaptive architecture that combines security and analytics, it enables customers to meet their continuity needs reliably and cost-effectively. Data Protector includes advanced monitoring and reporting capability to help identify, analyze, and offer recommendations for backup and recovery solutions to support the goals and strategies of businesses.

Data Protector provides:

- Enterprise scale and security
- Application-consistent recovery
- Backup and recovery for virtual environments
- Best-in-class platform and cloud integrations
- Disaster recovery
- Orchestration, automation, and monitoring
