Quality Center Express (previously called HPE Quality Center Express)	Yes	Class 1	Class 3

  

Suites	E-LTU or E-Media available*	Perpetual License Non-production use category**	Term License Non-production use category (if available)
Project and Portfolio Management Enterprise Suite (previously called HPE Project and Portfolio Management Enterprise Suite)	Yes	Class 1	Class 3
Project and Portfolio Management Portfolio Manager Suite (previously called HPE Project and Portfolio Management Portfolio Manager Suite)	Yes	Class 1	Class 3
Project and Portfolio Management Project Manager Suite (previously called HPE Project and Portfolio Management Project Manager Suite)	Yes	Class 1	Class 3
Project and Portfolio Management Team Member Suite (previously called HPE Project and Portfolio Management Team Member Suite)	Yes	Class 1	Class 3

\* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

\*\* Non-production use rights, if any, can be found at [software.microfocus.com/legal/software-licensing](https://software.microfocus.com/legal/software-licensing).

\*\*\* Except for Quality Center High Availability Server, which is Class 2.

## Additional License Authorizations

For Lifecycle and Portfolio Management software products

# Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

<b>Term</b>	<b>Definition</b>
Adapter	Means the test management adapter software developed by you using the ALM synchronizer to enable the test management Micro Focus software to properly interoperate, during run-time, with the Designated Application or Technology.
Application Server	Means a computer running software that executes business or application logic that is made available to a web server for process requests.
Application Under Test or AUT	Means a software application being tested by software.
Area	Means a license allowing the software to be used in a single region, defined as the Americas (North, Central and South America and Mexico) or EMEA (Europe, Middle East and Africa) or JAPAC (Japan, Asia, Pacific Rim and Australia); Area cannot be global or multiple regions. Area is determined where the order for the license is placed, unless the applicable Supporting Material indicates otherwise. Area licenses cannot be moved to an alternate Area from where the original order was placed, without paying to Micro Focus a geographic relocation fee.
Casual Named User or Csl Nmd User	Means a Named User that may occasionally access APIs, create and view requests, update only the requests the user created, view portals, and run/view reports.
Cold Standby System	Means a standby non-production system which is NOT up and running. If the production system breaks down or needs to be brought out of service, you are required to switch on and start the Cold System Standby in order to take over for the production system.
Concurrent Users or CC Users or CCU	Means the software is licensed by the amount of users that simultaneously use the software at any one point in time. The software can be installed on any number of computers, provided that the actual usage of the software does not exceed the number of licenses purchased.
Connector or Conn	Means an integration element to a certain software, format or function through use of the Micro Focus software product.
Designated Application or Technology	Means that certain of your proprietary or third party software application, operating system, middleware or other technology platform, standard, protocol or functionality.
Development and Test Systems	Means a non-production system to be used only for a) developing your add-on applications in order to access the licensed software b) migration testing c) pre-production staging or (d) version upgrades/configuration and transition purposes for Micro Focus testing products such as Quality Center, Functional Testing, Service Test, LoadRunner and Performance Center (including Diagnostics module).
Device or Dev	Means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
E-LTU and E-Media	Means products which are electronically delivered only, and as such any references to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Fail or Failover	Means a backup operation that automatically switches the functions of a primary system to a standby server if the primary system fails or is temporarily taken out of service.
Foundation	Means a single Instance of the core or primary components of a software application which enable its basic functionality, and without which the additional modules available for the application are unable to operate. Foundation software may be installed on one or multiple servers, depending on the specific architecture required to enable the functioning of the single Instance.
Global or Gbl	Means the right to use software worldwide.
High Availability Server or HAS	Means the ability to cluster two (2) or more Application Servers as if they were a single entity to support larger number of users.

## Additional License Authorizations

For Lifecycle and Portfolio Management software products

<b>Term</b>	<b>Definition</b>
Hot Standby System	Means a non-production system which is up and running, ready to take over from the production system if the production system breaks down or needs to be taken out of service.
Instance	Is defined as each implementation of the application installed on a server.
Internal Use	Means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	Means License To Use.
Named User <i>or</i> Nmd User	Means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
Non-Production <i>or</i> NP	Means internal use which is limited to Use on a Development and Test Systems and Hot and Cold Standby Systems. This NP license requires the previous purchase of the equivalent or greater production licenses. Support for NP licenses is restricted to the period of and current status of the equivalent production license.
Occasional User	Means a user who logs into the SaaS Project and Portfolio Management Instance once a week or less.
Power Named User	Means a Named User that may access APIs, create and view requests, update requests created by any Demand Management user, review the system portal and run/view reports.
Remote Access	Means the act of accessing a computer over the network from an originating location remotely removed from the Site or the location of the computer being accessed or controlled.
SaaS	Means Software as a Service which is a service which allows access to the software, support and related professional services, as described in an order document, datasheet or a Statement of Work (SOW).
SDK	Means Software Development Kit which is a set of software development tools that allows the creation of applications for a certain software package, software framework, or similar development platform.
Seat	Means only one Device is authorized to use the software within the designated Site at a time.
Seat User	Means only one Device or user is authorized to use the software at a time.
Server	Means any designated computer system in which an Instance or Instances of the software is installed.
Site <i>or</i> S	Means a license allowing the software to be used at an address (e.g., room number, department number, building number, street address, campus etc.) or a group of addresses specified in the applicable Supporting Material. Site cannot include multiple addresses or addresses in multiple countries or states. Site licenses cannot be moved to an alternate Site after the original purchase without paying to Micro Focus a geographic relocation fee. If no Site address is explicitly specified in the Supporting Material, then the Site address will be the Ship To address specified on the quotation.
Standard Users	Means those users who log into the SaaS Project and Portfolio Management Instance more than once a week.
Suite	Means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the software specific license terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
Term License to Use <i>or</i> Term LTU	Means a software license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTU's are not perpetual licenses.
Term Support	Means a fixed period support offering that is only valid during the time period of the associated Term LTU.
Third Party Location	Means a location leased or owned by the Third Party.
Third Party Use	Means as authorized in the Software Specific License Terms, you may permit a Third Party to access and use the software on your behalf for the sole purpose of providing services to you, provided that; (i) If you have a Site License then a Third Party may use the software only at your site; and (ii) for geographically restricted licenses you have purchased the required Area or Global license for use at Third Party's Location; and (iii) you designate the Third Party as your designated personnel for the purpose of receiving Micro Focus support and maintenance services; and (iv) you are responsible and directly liable to Micro Focus for the use of the software by the Third Party. Third Party may not use the software for

Term	Definition
	their own internal business purposes, nor permit any other third party to access the software; and (v) you shall provide written notice to Micro Focus of the Third Party's name and the address of Third Party's Location; and (vi) Upon the termination or expiration of Third Party's services to you, you shall promptly instruct the Third Party to remove and return all software in its possession to you and you shall promptly notify Micro Focus of such termination or expiration.
Use	Means to install, store, load, execute and display one copy of the software.

## Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

### Agile Manager (previously called HPE Agile Manager)

Agile Manager is licensed by Concurrent User and by Named User.

The Agile Manager (AGM) license entitles you to the use of the AGM synchronizer with Application Lifecycle Management (ALM) and Quality Center (QC). Use of the AGM synchronizer is limited as follows:

The AGM synchronizer may be used only to synchronize Requirements, Releases and Defects between AGM and ALM. The AGM synchronizer license is limited to one copy per developer solely for the purpose of your own internal use. The AGM synchronizer license is non-transferable, non-sub licensable, nonexclusive and for internal use only.

You shall not: (i) modify or adapt the AGM synchronizer; (ii) copy the AGM synchronizer, except for making a reasonable number of copies to the extent necessary for prudent back-up and disaster recovery purposes; (iii) create derivative works based on the AGM synchronizer (iv) use the AGM synchronizer in any way that competes with Micro Focus, Micro Focus software or any extension to the Micro Focus software developed and marketed by Micro Focus; (v) allow any third party to use or have access to the AGM synchronizer; (vi) distribute, rent, lease, lend, transfer or sublicense the AGM synchronizer.

### ALM Essentials (previously called HPE ALM Essentials)

ALM Essentials is licensed by Named User. The ALM Essentials license entitles you to the use of ALM synchronizer and use of the ALM synchronizer SDK. Use of the ALM synchronizer SDK requires a separate agreement between you and Micro Focus. Use of the ALM synchronizer is limited as follows:

- ALM synchronizer may be used only to develop adapters between ALM Requirements and/or ALM Defects with 3rd party tools and other (non-ALM) Micro Focus software solutions. Synchronization between ALM Essentials Instances (and the Instance itself) is allowed as long as all ALM Essentials Instances being synchronized are ALM Essentials. Synchronization between Quality Center Enterprise and ALM Essentials or between Application Lifecycle Management and ALM Essentials is not allowed.
- Synchronization between ALM Essentials and Performance Center is not allowed.

High Availability Servers are not available with ALM Essentials.

The ALM synchronizer license is non-transferable, non-sub licensable, nonexclusive and for internal use only. The ALM synchronizer license is limited to one copy per developer solely for the purpose of developing and using the Adapter for your own internal use. You shall build a production ready Adapter that interoperates with the Micro Focus software solely for the internal business purposes of you and not for marketing, licensing or distribution of the Adapter to third parties. You shall develop the Adapter for use with the Designated Application or Technology solely for use and interoperation with the Micro Focus software. To develop and use the Adapter, you must also have in effect a separate valid production license for the Micro Focus software. A separate license for the ALM synchronizer will be required for each Adapter developed by you.

## **Additional License Authorizations**

For Lifecycle and Portfolio Management software products

---

You shall not: (i) modify or adapt the ALM synchronizer (ii) copy the ALM synchronizer, except for making a reasonable number of copies to the extent necessary for prudent back-up and disaster recovery purposes; (iii) create derivative works based on the ALM synchronizer (iv) use the ALM synchronizer in any way that competes with Micro Focus, Micro Focus software or any extension to the Micro Focus software developed and marketed by Micro Focus; (v) allow any third party to use or have access to the ALM synchronizer (vi) distribute, rent, lease, lend, transfer or sublicense the ALM synchronizer or (vii) use the ALM synchronizer to develop an Adapter for synchronizing test management Micro Focus software data with other test management Micro Focus software data.

### **Application Lifecycle Management (previously called HPE Application Lifecycle Management and HP Quality Center Premier)**

Application Lifecycle Management is licensed by either Site Concurrent User, Area Concurrent User or Global Concurrent User. Remote Access is permitted where users are regularly employed at the Site or Area. Remote Access by users located outside of the Area requires a Global license. Third Party access and use at the Third Party Location is permitted in accordance with the Third Party Use. Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus is not liable for consequences or any damages resulting from Use of the software to perform functions for which it was not originally licensed. The Application Lifecycle Management (ALM) license entitles you to the use of ALM synchronizer and use of the ALM synchronizer SDK. Use of the ALM synchronizer requires a separate agreement between you and Micro Focus.

### **Application Lifecycle Management Octane Team Edition (previously called HPE Application Lifecycle Management Octane Team Edition)**

Application Lifecycle Management Octane (ALM Octane) Team Edition is licensed by Named User for Global usage.

### **Application Lifecycle Management Octane Pro Edition (previously called HPE Application Lifecycle Management Octane Pro Edition)**

ALM Octane Pro Edition is licensed by Named User or Concurrent User for Global usage. A license for ALM Octane Pro Edition entitles you to use ALM Octane synchronizer and connects to Quality Center Enterprise (QCE).

### **Application Lifecycle Management Octane Enterprise Edition (previously called HPE Application Lifecycle Management Octane Enterprise Edition)**

ALM Octane Enterprise Edition is licensed by Named User or Concurrent User for Global usage. A license for ALM Octane Enterprise Edition entitles you to use ALM Octane synchronizer and connect to Application Lifecycle Management (ALM).

### **Project and Portfolio Management (previously called HPE Project and Portfolio Management)**

Project and Portfolio Management includes a license to Anywhere limited edition software. Use of the remote access capabilities of the Anywhere limited edition software is restricted to the Project and Portfolio Management software only and cannot be used with any other Micro Focus product or third party products.

**Project and Portfolio Management Application Portfolio Management – Casual Named User 100 Pk:** is a bundle of 100 licenses intended solely for access to Application Portfolio Management in order to respond to surveys or update specific application detail information and view dashboards containing content specific to this user type.

**Project and Portfolio Management Application Portfolio Management – Named User:** allows to add and update information, view application and portfolio level portlets, run reports, perform dynamic graphing analysis, create, submit and review surveys, and create new portlets and dashboard items.

## Additional License Authorizations

For Lifecycle and Portfolio Management software products

---

**Project and Portfolio Management Demand Management – Casual Named User:** access APIs, submit requests, monitor the status of own requests, and provide user sign-off. Includes access to Application Portfolio Management to respond surveys or update specific application detail information and view dashboards containing content specific to this user type.

**Project and Portfolio Management Demand Management – Power Named User:** access APIs, submit requests, monitor the status of own and others' requests, and provide user sign-off. Participate in the request processes and actively resolve requests – update request information, perform approvals, assign requests, prioritize requests, move requests through the workflow. Monitor SLA's and act on exceptions, run reports. Includes access to Application Portfolio Management to respond surveys or update specific application detail information and view dashboards containing content specific to this user type.

**Project and Portfolio Management Mobility Access Smart Plug-in:** Project and Portfolio Management Mobility Access Smart Plug-in is licensed per Foundation and is required for each Project and Portfolio Management Foundation license purchased.

## Quality Center Enterprise (previously called HPE Quality Center Enterprise)

Quality Center Enterprise is licensed by either Site Concurrent User, Area Concurrent User or Global Concurrent User. Remote Access is permitted where users are regularly employed at the Site or Area. Remote Access by users located outside of the Area requires a Global license. Third Party access and use at the Third Party Location is permitted in accordance with the Third Party Use. Third Party Use at the Third Party Location requires an Area or a Global license. If the Third Party Location is outside of the Area licensed by you, then you must obtain a Global license. Micro Focus is not liable for consequences or any damages resulting from Use of the software to perform functions for which it was not originally licensed. The Quality Center Enterprise (QCE) license entitles you to the use of ALM synchronizer and use of the ALM synchronizer SDK. Use of the ALM synchronizer SDK requires a separate agreement between you and Micro Focus.

## Quality Center Express (previously called HPE Quality Center Express)

Quality Center Express is licensed by Concurrent User and by Named User. The Quality Center Express license entitles you to the use of ALM synchronizer and ALM synchronizer SDK. Use of the ALM synchronizer SDK requires a separate agreement between you and Micro Focus.

## Lifecycle and Portfolio Management Suite offerings

Suite	Offering includes
Project and Portfolio Management Enterprise Suite Casual Named User (previously called HPE Project and Portfolio Management Enterprise Suite Casual Named User)	<ul style="list-style-type: none"><li>1 Project and Portfolio Management Demand Management Casual Named User</li><li>1 Project and Portfolio Management Time Management Named User</li></ul>
Project and Portfolio Management Enterprise Suite Power Named User (previously called HPE Project and Portfolio Management Enterprise Suite Power Named User)	<ul style="list-style-type: none"><li>1 Project and Portfolio Management Foundation (over 25 users)</li><li>1 Project and Portfolio Management User Administration Named User</li><li>1 Project and Portfolio Management Configuration Named User</li><li>1 Project and Portfolio Management Demand Management Power Named User</li><li>1 Project and Portfolio Management Portfolio Management Named User</li><li>1 Project and Portfolio Management Program Management Named User</li><li>1 Project and Portfolio Management Project Management Named User</li></ul>

## Additional license terms

Term
A. Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
B. You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
C. To the extent this restriction is not prohibited under applicable law, you shall not disclose to any third party the results of (i) any performance benchmarks you run on software products themselves, or any portion thereof, or (ii) specific detailed comparisons you make between software products, or any portion thereof, and any of your or third-party product, in each case under (i) and (ii) without the prior written consent of Micro Focus.
