I create this view and the Hierarchy is RULE based :

I click on the preview button next to the calculator:

I double click on sov02am02 node and I get this:

The issue is - I should at this point only in fact be seeing this**:**

Ie just the IP addresses , **NOT the Interfaces at this point**

I should only see the interfaces **at the next layer down** eg if I double click on **2002:f77:baca::f77:baca**   I do still get 6T04 Interface showing :
