
Additional License Authorizations

For Service Management Automation software products (SBM, SRC, and SSM)

Additional License Authorizations

For Service Management Automation software products (SBM, SRC, and SSM)

This Additional License Authorizations (“ALA”) sets forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the applicable Micro Focus End User License Agreement (“EULA”) and/or any separate agreement that grants Licensee a license to such products (i.e., Customer Portfolio Terms or other Master Agreement and/or Quotation) (“Applicable Agreement”). The EULA, and/or the Applicable Agreement, if such agreement exists, shall be known as the Governing Agreement. Capitalized terms used but not defined herein shall have the meanings set forth in the Governing Agreement.

Products covered

Products	E-LTU or E-Media available *	Non-production software class **	Term License Non-production software class (if available)
SBM (all variants including Business Mashups and TeamTrack)	Yes	Class 2	Class 2
SRC	Yes	Class 2	Class 2
SSM	Yes	Class 2	Class 2

* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

** Additional licenses solely for non-production use may be available as specified in the Non-Production Licensing Guide found at software.microfocus.com/legal/software-licensing depending on the non-production software class specified above. Any such non-production licenses will be subject to the Non-Production Licensing Guide and the applicable License Option terms and conditions set forth in this ALA.

Definitions

Term	Definition
Concurrent Users	Means individuals who, at the same point in time, have accessed or used the Licensed Software via any device or other software program, directly or indirectly, regardless of how such access occurs or whether such user uses any hardware or software that reduces the apparent number of users who are using the Licensed Software, such as by using a terminal service. Access or use means the ability to use, copy or operate the Licensed Software or the loading of any part of the Licensed Software into random access memory (RAM) of a computer.
E-LTU and E-Media	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Named User	Means a single employee of Licensee who has been designated as an authorized user of the Licensed Software and accesses the Licensed Software at any given point in time, either directly or through an application.
Seat	Means a single employee of Licensee who has been authenticated by Licensee’s LDAP server and accesses the Licensed Software at any given point in time, either directly or through an application.

License Options

The following License Options are the types of licenses available for a given software product as further specified in this ALA. The applicable License Option for a license shall be as set forth in the Applicable Agreement or Product Order. Those products with only one License Option available shall be governed by such License Option whether or not stated in the Applicable Agreement or Product Order unless otherwise agreed in writing between Licensee and Licensor.

Additional License Authorizations

For Service Management Automation software products (SBM, SRC, and SSM)

Named User License

Under this License Option, each Named User requires a Named User License which provides Licensee the right to use the Licensed Software by no more than the number of Named Users expressly authorized by Licensor in the applicable Product Order. If an application accessing the Licensed Software is a multiplexing, database, or web portal application that permits users of such application to access the Licensed Software or data processed by the Licensed Software, a separate Named User license will be required for each user of such application. A Named User License is required for each managed administrator of the Licensed Software. Licensee may change from time to time the employees who are designated to use the Licensed Software under a Named User License, provided that the number of users does not exceed the total number of Named User Licenses purchased.

Concurrent User License

Under this License Option, Licensee may permit multiple Concurrent Users to share access to and use the Licensed Software, provided that the number of Concurrent Users accessing the Licensed Software at any point in time does not exceed the total number of Concurrent Users expressly authorized by Licensor in the applicable Product Order. If an application accessing the Licensed Software is a multiplexing, database, or web portal application that permits users of such application to access the Licensed Software or data processed by the Licensed Software, a separate Concurrent User license will be required for each user of such application.

Seat License

Under this License Option, each Seat requires a Seat License which provides Licensee the right to use the Licensed Software by no more than the number of Seats expressly authorized by Licensor in the applicable Product Order. If an application accessing the Licensed Software is a multiplexing, database, or web portal application that permits users of such application to access the Licensed Software or data processed by the Licensed Software, a separate Seat license will be required for each user of such application. A Seat License is required for each managed administrator of the Licensed Software. Licensee may change from time to time the employees who are designated to use the Licensed Software under a Seat License, provided that the number of users does not exceed the total number of Seat Licenses purchased.

Server License

A Server License permits instantiation of one instance of the Licensed Software.

Additional License Options

The following additional License Options may also apply to one of the License Options above if set forth in the applicable Product Order notwithstanding anything else to the contrary in this ALA:

Third Party Usage License Extension

For a license for which a Third Party Usage License Extension has been purchased, such license can be used by third party contractors of Licensee, notwithstanding any restriction to the contrary in the Governing Agreement, provided that (1) each such third party is under a written obligation of confidentiality and restrictions of use which provide for protections and limitations of use of the license no less restrictive than the Governing Agreement, (2) the license will only be used on behalf of Licensee, (3) such use is subject to the terms and conditions of the Governing Agreement, and (4) Licensee remains liable for any breach by any such third party of the terms of the Governing Agreement.

Off Continent License Extension

For a license for which an Off Continent License Extension has been purchased, such license can be used worldwide, except where prohibited by applicable law, notwithstanding any restriction to the contrary in the Governing Agreement.

Additional License Authorizations

For Service Management Automation software products (SBM, SRC, and SSM)

Software Specific Terms

SBM (all variants)

The following License Options apply: Named User License, Concurrent User License, External Requestor Seat License, Occasional Seat License, Seat License, Server License, Single Application Seat License.

For any license that is specified as non-production, Licensee may only use such license for non-production purposes, and may not install such license on a machine used for production or otherwise use for production purposes. Any license that is specified as production may be installed on a machine that is used for production or non-production.

- A Seat or Named User License allows a designated user to use and participate in all activities and functionality of the Licensed Software that pertain to workflow applications to which the user has been granted access at runtime, including the workflow, workflow roles, transition items, sending and receiving notifications, creating reports, and creating dashboards. A Seat License is required for each managed administrator of the Licensed Software.
- An Occasional Seat License is a Seat License that is limited in functionality to submitting, updating and transitioning items only where the user is identified as the Submitter.
- An External Requestor Seat License only allows the licensed user to submit issues and view status of those issues in the Licensed Software related to primary items.
- A Single Application Seat License is a Seat License that can only be used with one process application.

SRC

The following License Options apply: Content User License.

A Content User License for SRC is an Occasional Seat License that is limited in functionality as described above. To gain entitlement to SRC, one or more SRC Content User Licenses must be owned.

SSM

The following License Option applies: Content User License, Concurrent Content User License.

Each Content User license or Concurrent Content User License allows the licensed Seat, Named or Concurrent User of SSM, respectively, to fully access the application content contained in the SSM solution process applications. A corresponding Seat, Named or Concurrent User SBM license must be assigned to any user assigned an SSM user license.

Additional License Terms

The following additional license terms shall apply to any software governed by this ALA:

Additional License Restrictions

Licensee shall not:

1. Transfer, ship or use the Licensed Software outside the continent in which it was originally licensed to Licensee without first purchasing an Off-Continent License Extension or otherwise paying Licensor any applicable additional fees required by Licensor. For purposes of the foregoing, "continent" shall mean North America, South America, Europe, Africa, Asia, Australia, or Antarctica.

Additional License Authorizations

For Service Management Automation software products (SBM, SRC, and SSM)

Oracle License Terms

The Licensed Software may contain certain software (the “Program(s)”) licensed by Licensor from Oracle America, Inc. (“Oracle”). For purposes of this provision, the term “You” or “Your” refers to Licensee. Oracle requires that You agree to the following terms regarding use of the Program. Oracle grants You a limited license to internally use the Program (as included in the Licensed Software) solely for Your own internal business operations. Further, You may not disclose results of any Program benchmark tests without Oracle’s prior consent. You agree that no data, information, program and/or materials resulting from Programs or services (or direct products thereof) will be exported, directly or indirectly, in violation of applicable export control laws, or will be used for any purpose prohibited by these laws including, without limitation, nuclear, chemical, or biological weapons proliferation, or development of missile technology. Accordingly, You confirm: You will not download, provide, make available or otherwise export or re-export the Programs, directly or indirectly, to countries prohibited by applicable laws and regulations nor to citizens, nationals or residents of those countries. You are not listed on the United States Department of Treasury lists of Specially Designated Nationals and Blocked Persons, Specially Designated Terrorists, and Specially Designated Narcotic Traffickers, nor are You listed on the United States Department of Commerce Table of Denial Orders. You will not download or otherwise export or re-export the Programs, directly or indirectly, to persons on the above mentioned lists. You will not use the Programs for, and will not allow the Programs to be used for, any purposes prohibited by applicable law, including, without limitation, for the development, design, manufacture or production of nuclear, chemical or biological weapons of mass destruction. The Programs’ installation and/or auto-update processes, if any, may transmit a limited amount of data to Oracle or its service provider about those processes to help Oracle understand and optimize them. Oracle does not associate the data with personally identifiable information. Refer to Oracle’s Privacy Policy at www.oracle.com/privacy. **THE PROGRAMS ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND. ORACLE FURTHER DISCLAIMS ALL WARRANTIES, EXPRESS AND IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL ORACLE BE LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE OR CONSEQUENTIAL DAMAGES, OR DAMAGES FOR LOSS OF PROFITS, REVENUE, DATA OR DATA USE, INCURRED BY YOU OR ANY THIRD PARTY, WHETHER IN AN ACTION IN CONTRACT OR TORT, EVEN IF ORACLE HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. ORACLE’S ENTIRE LIABILITY FOR DAMAGES UNDER THIS AGREEMENT SHALL IN NO EVENT EXCEED ONE THOUSAND DOLLARS (U.S. \$1,000).** Unless Oracle support for the Programs, if any, is expressly included in a separate, current support agreement between You and Oracle, Oracle’s technical support organization will not provide technical support, phone support, or updates to You for the Programs. Oracle is a third party beneficiary of this license agreement with respect only to the Programs. For software that You receive from Oracle in binary form that is licensed under an open source license that gives You the right to receive the source code for that binary, You can obtain a copy of the applicable source code from <https://oss.oracle.com/sources/> or <http://www.oracle.com/goto/opensourcecode>. If the source code for such software was not provided to You with the binary, You can also receive a copy of the source code on physical media by submitting a written request pursuant to the instructions in the "Written Offer for Source Code" section of the latter website.

The Licensed Software may require Licensee to separately obtain the Java™ Platform, Standard Edition Runtime Environment (JRE), and in such event any use of the JRE shall be governed by the license agreement accessible at <http://www.oracle.com/technetwork/java/javase/terms/license/index.html>. Use of the Commercial Features for any commercial or production purpose requires a separate license from Oracle. “Commercial Features” means those features identified Table 1-1 (Commercial Features In Java SE Product Editions) of the Java SE documentation accessible at <http://www.oracle.com/technetwork/java/javase/documentation/index.html>. Licensee may not create, modify, or change the behavior of, classes, interfaces, or subpackages that are in any way identified as "java", "javax", "javafx", "sun", “oracle” or similar convention as specified by Oracle in any naming convention designation.
