Additional License Authorizations

For File Analysis Suite Products

This Additional License Authorizations (“ALA”) sets forth the applicable License Options and additional specific software license terms that govern the authorized use of the software products specified below, and are part of the applicable Micro Focus End User License Agreement (“EULA”) and/or any separate agreement that grants Licensee a license to such products (i.e., Customer Portfolio Terms or other Master Agreement and/or Quotation) (“Applicable Agreement”). The EULA, and/or the Applicable Agreement, if such agreement exists, shall be known as the Governing Agreement. Capitalized terms used but not defined herein shall have the meanings set forth in the Governing Agreement.

Products and Suites covered

Products	E-LTU or E-Media available *	Non-production software class **	Term License Non-production software class (if available)
File Analysis Suite (FAS)	Yes	Class 1	Class 1

* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

** Additional licenses solely for non-production use, may be available as specified in the Non-Production Licensing Guide found at software.microfocus.com/legal/software-licensing depending on the non-production software class specified above. Any such non-production licenses will be subject to the Non-Production Licensing Guide and the applicable License Option terms and conditions set forth in this ALA.

Definitions

Term	Definition
E-LTU and E-Media	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
FAS Standalone Customer	Means customer hosting the File Analysis Suite in their own Data Center or Cloud environment.
GB	Means gigabytes which designates the amount of physical capacity that can be managed.
Internal Use	Means access and Use of the software for purposes of supporting your internal operations or functions.
Managed Service Provider (MSP)	Means partner hosting the File Analysis Suite for their customers in their own Data Center or Cloud environments.
TB	Means terabytes which designates the amount of physical capacity that can be managed.
Term Support	Means a fixed period support offering that is only valid during the time period of the associated Term.

Software Specific Terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

File Analysis Suite (FAS)

File Analysis Suite (FAS) license is a consumption and are based in Terabytes (TB) of raw source data, for example the total volume of the source files scanned within a file target (On-Premises and/or Cloud).

FAS for Managed Service Providers is licensed by Managed Service Provider (MSP) for the amount of TB purchased by the MSP. The license is limited to use by a Managed Service Provider who has signed a Managed Service Provider Agreement and only for the purpose of providing Managed Services. FAS for Managed Service Provider on Premise cannot be used for internal use.

Purchase Options	Definition
MSP Multi-use 1 Year Term	<ul style="list-style-type: none">▪ Long term use e.g. data lifecycle, data privacy. License allows for multiple customers. Reporting and monitoring is done in conjunction with the MSP agreement.▪ Purchased in bulk by TB.
MSP Multi-use 3 Year Term	<ul style="list-style-type: none">▪ Long term use e.g. data lifecycle, data privacy. License allows for multiple customers. Reporting and monitoring is done in conjunction with the MSP agreement.▪ Purchased in bulk by TB.
MSP Pay Per Use 3 Month Term	<ul style="list-style-type: none">▪ Short term use e.g. risk assessments, license is not multi-use and expires after 90 days.▪ Purchased in bulk by TB.
Stand Alone Customer	<ul style="list-style-type: none">▪ Single use for large customer deployment in private DC.▪ Purchased in bulk by TB.

Hosting Requirements

Managed Service Providers and Stand-Alone Customers hosting the File Analysis Suite in their own Data Center or Cloud environments are required to follow the following:

Version Currency, Update Requirements	<ul style="list-style-type: none">▪ FAS Software installed on Customer Environments or on Partner Environments must be updated to the latest code within 90 days of notification of an update to a FAS component.▪ Security Updates will need to be installed within 30 days of notification of an update to a FAS component.▪ Micro Focus is not responsible to fix any issues that are found in older software components if the component has been updated with a newer release.
Environment Hosting Requirements	<ul style="list-style-type: none">▪ MSP and Customers hosting FAS in an internal data Center are required to meet with the FAS Professional Services Team before any software is installed and receive approval to ensure their FAS hosting environment will meet FAS hardware and software requirements.▪ MSP and Customers hosting FAS in deployments in a Cloud environment are required to meet with the FAS Professional Services Team to ensure the cloud environment will support FAS.▪ Do not deploy non approved services or software, (i.e. virus software) on the server hosting environment. Non approved software may have detrimental effects on the performance of FAS. Micro Focus is not responsible for negative impacts of non approved software running on host sever environment.

Additional License Authorizations

For File Analysis Suite Products

Internal Use: No Internal Use is allowed with regard to Service Provider Licenses. Internal Use means installation, access and use of the Eligible Products by Partner for the purpose of running or supporting Partner's own internal business operations or functions.

Transfer: Service Provider (SP) Partner is not entitled to transfer the Products to any of the Service Provider (SP) Partner's end customers at any point during or after the contract term.

Support Services Required

1. Annual 24x7 Support and Content Update Subscription is required to host the File Analysis Suite
2. FAS Service Pack on premise

Integrations: File Analysis Suite (FAS) comes already bundled with a set of out of the box connectors that allow FAS to connect to a preselected set of repositories. FAS supports the use of additional IDOL connectors, if required please contact FAS Product Management. The following connectors are included in the out of the box version of FAS: File system, Exchange®, SharePoint, Office365, One Drive, Content Manager. Any further available connectors can be purchased using the ECM connector licenses.

Additional License Terms

The following additional license terms shall apply to any software governed by this ALA:

1. You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
2. Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
