Additional License Authorizations

for HP SOA Center Software products

Product use authorizations

This document provides Additional License Authorizations for the following Software products in the SOA Center of HP's Business Technology Optimization Software:

- HP SOA Registry Foundation
- HP SOA Systinet Standard Edition
- HP SOA Systinet Visibility Edition

Definitions

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing Agreement.

Term	Definition
Agent	means that portion of the Software that manages and is required for each physical server, virtual server or container.
Concurrent or CC Users	means the Software is licensed by the amount of users that simultaneously use the Software at any one point in time. The Software can be installed on any number of computers, provided that the actual usage of the Software does not exceed the number of licenses purchased.
CPU	means a system that contains a single central processing unit with a single integrated circuit package with a single discrete processing core.
Device or Dev	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
E-LTU and E-Media	means products which are electronically delivered only, and as such any references to FOB Destination or delivery methods that are stated on Your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Foundation	means a single Instance of the core or primary components of a software application which enable its basic functionality, and without which the additional modules available for the application are unable to operate. Foundation software may be installed on one or multiple servers, depending on the specific architecture required to enable the functioning of the single Instance.
Instance	is defined as each implementation of the application installed on a server.
Internal Use	means access and Use of the Software for purposes of supporting the internal operations or functions of Licensee.
LTU	means License To Use.
Monitored CPU	means a CPU operating on Licensee's network that is monitored by Software.
Named Users	means a specific individual authorized by Licensee to access the Software regardless of whether they are actively using the Software.
Use	means to install, store, load, execute and display once copy of the Software.

Software specific license terms

For Software Products with software specific license terms, these terms are described below. Software Products covered by this additional license authorization (as listed on the first page under Product use authorizations) and not covered in this section do not have software specific license terms.

HP SOA Registry Foundation
This Software is licensed by CPU or single user.

HP SOA Systinet Standard Edition
This Software includes SOA Repository Policy Management and Contract Management and a 2 CPU Registry Foundation license. Additional Registry Foundation licenses are also available as an add-on. Aside from Registry Foundation, this Software is licensed per Instance along with a specific number of Named and or/Concurrent User license. Design Environment may only be used for sandbox purposes and requires a license for one Standard Edition Instance for one or more Design Environment Instances. Design Environment does not require a user license. It provides the features associated with the Standard Edition for the purposes of creating, demonstrating and staging customizations/extensions in a sandbox environment.

HP SOA Systinet Visibility Edition
This Software includes SOA Repository and Registry and a 2 CPU Registry Foundation license. Additional Registry Foundation licenses are also available as an add-on. Aside from Registry Foundation, this Software is licensed per Instance and number of Named and/or Concurrent User licenses. Design Environment may only be used for sandbox purposes and requires a license for one Visibility Edition Instance for one or more Design Environment Instances. Design Environment does not require a user license. It provides the features associated with the Visibility Edition for the purposes of creating, demonstrating and staging customizations/extensions in a sandbox environment.

Additional license terms

The Software described in this Additional License Authorization ("ALA") is governed by the agreement set forth on the quote for the order referencing this Software. The terms of this ALA shall govern delivery of the Software and specifically take precedence over any different terms in such agreement to the extent of a conflict.

Term	Definition
A.	Unless stated otherwise, Licensee is authorized to Use one Device at a time for Licensee's Internal Use.
B.	Licensee accepts Software upon delivery.
C.	Third party suppliers are intended beneficiaries under this Agreement and independently may protect their rights in the Software in the event of any infringement. All rights not expressly granted to Licensee are reserved solely to HP or its suppliers.
D.	Licensee must reproduce all copyright notices that appear in or on the Software (including documentation) on all permitted copies or adaptations. Copies of documentation are limited to Internal Use.
E.	Licensee may not Use or allow any other person or entity to Use Software or Support for the provision of commercial timesharing, service bureau, managed, outsourcing, ASP, subscription or other services to any person or entity without written authorization from HP, pursuant to additional terms and conditions or a separate written agreement for such Use and where applicable licenses and fees.
F.	Licensee agrees that HP may audit relevant books and records (including electronic), devices computers and systems of Licensee and its service providers, consultants and contractors (collectively, "Contractors") relating to the Software in order to verify Use of the Software in compliance with the Software license terms ("License Terms") . HP may make copies of any such books and records. HP may conduct the audit itself, or at its option may use an independent third party. Audits may be conducted at any sites of Licensee, and its Contractors where copies of the Software are installed, Used or accessed, including remotely. HP will bear its own costs in connection with an audit. HP shall provide at least twenty one (21) calendar days prior notice of any audit, except when it has reasonable cause to suspect that there is an infringement of its intellectual property rights, in which case only two (2) working days' notice is required. Any audit would be performed during Licensee's normal business hours in a manner that minimizes disruption to Licensee's business. Licensee and its Contractors shall provide HP and its auditor with all assistance reasonably required in order to carry out the audit. If an audit reveals underpayments, then Licensee will pay HP such amounts invoiced by HP based on the prices for the Software license and Support fees specified in the local published HP price list in effect on the date of completion of the audit. If the underpayment exceeds by 5% the prices payable by Licensee for the Software and Support during the period covered by the audit, then Licensee will also pay the costs reasonably incurred by HP in connection with the audit and seeking compliance with this sub-section . HP's rights and remedies in this section shall be without prejudice to any additional rights or remedies it may have at law or in equity for Licensee's non-compliance with these License Terms. Licensee shall cause its Contactors to agree to, and comply with, the provisions of this section and shall be responsible for their non-compliance.

Technology for better business outcomes
