## Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

# Support

Visit the HP Software Support Online web site at:

**<http://www.hp.com/go/hpsoftwaresupport>**

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

**<http://h20229.www2.hp.com/passport-registration.html>**

To find more information about access levels, go to:

**[http://h20230.www2.hp.com/new\\_access\\_levels.jsp](http://h20230.www2.hp.com/new_access_levels.jsp)**

## Overview

This support and compatibility matrix provides support information about HP Anywhere. Click one of the following links to see more detailed information.

["Server Requirements "](#) on next page

["Client Platform"](#) on page 8

# Hardware and Software Requirements

## Server Requirements

Before installing the HP Anywhere Server, make sure that your system meets the following minimum requirements:

### Operating System

- Microsoft Windows® Server 2008 R2 64 bit Enterprise

### Hardware Requirements

- Minimum Physical Memory: 4 GB
- Minimum Swap Space: 1024 MB
- CPU Dual Core

### Relational Database Management System (RDBMS) Requirements

Either of the following databases are supported as RDBMS for the HP Anywhere server:

- Microsoft SQL Server 2008 Enterprise Edition with SP2
- Oracle 11g Release 2 Enterprise Edition

The database used must support UTF 8.

### Ports

The following ports are checked during installation and must be open:

- 20001 - 20009, 29009, 21942 - 21943

### Integration with Other Products:

The following table presents the mini apps that can be downloaded from HPLN to the Administrator Console, and installed on the mobile devices. For each mini app, the mini app (client) and backend versions are listed.

Application	Mini App Version	Backend Version
ALM Defect Management	1.0	11 (with patch 7)
PPM Request Management	1.0	9.13
IT Executive Scorecard for Smartphone	1.0	9.02
IT Executive Scorecard for Tablet	1.0	9.02
BSM Service Health	1.0	8.x and 9.x
BSM Application Performance Management	1.0	9.12

## Client Platform

Before using the HP Anywhere on the mobile device, make sure that your system meets the following minimum requirements:

### **Operating System**

The HP Anywhere client can be installed on Tablets and Smartphones that support the following operating systems:

- iOS 4.0 and above
- Android 2.2 and above
