Support

Please visit the HP OpenView web site at:

<http://www.managementsoftware.hp.com/>

This web site provides contact information and details about the products, services, and support that HP OpenView offers.

You can also go directly to the support web site at:

<http://support.openview.hp.com/>

HP OpenView online software support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valuable support customer, you can benefit by using the support site to:

- Search for knowledge documents of interest
- Submit and track progress on support cases
- Manage a support contract
- Look up HP support contacts
- Review information about available services
- Enter discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and log in. Many also require a support contract.

To find more information about access levels, go to:

http://support.openview.hp.com/access_level.jsp

To register for an HP Passport ID, go to:

<https://passport2.hp.com/hpp/newuser.do>

1 Upgrading the Radia Administrator Workstation

Radia Administrator Workstations Upgrade Instructions

To upgrade the Radia Administrator Workstation

- Install the new Administrator Workstation using `./install` from the correct operating system-specific Administrator Workstation directory on the Management Applications CD-ROM.

For example, for HP-UX, use the installation media located in:

`management_infrastructure/administrator_workstation/hpux`

The existing Administrator Workstation files are replaced during the new installation. You do not need to remove these files prior to installation.

See the *Installing the Radia Administrator Workstation* chapter in any of the Radia Client guides for detailed information about how to use the installation.
