

Additional License Authorizations

For Shunra Network Virtualization software

The software described in this Additional License Authorization (“ALA”) is governed by the agreement set forth on the quote for the order referencing this software. The terms of this ALA shall govern delivery of the software and specifically take precedence over any different terms in such agreement to the extent of a conflict.

Product use authorizations

This document provides Additional License Authorizations for Shunra Network Virtualization software, distributed by HP:

Products

Shunra Network Virtualization for HP LoadRunner

Shunra Network Virtualization for HP Performance Center

Definitions

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement.

Term	Definition
<i>Application Under Test or AUT</i>	means a software application being tested by software.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Load Generator</i>	means a device with the HP LoadRunner or HP Performance Center Load Generator software installed that is used to generate multiple simultaneous Virtual User connections against an Application Under Test.
<i>LTU</i>	means License To Use
<i>Use</i>	means to install, store, load, execute and display one copy of the software.
<i>Virtual User or VU or Vuser</i>	means a software process emulating users executing a Use case interaction against an AUT.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by this additional license authorization (as listed on the first page under Product use authorizations) and not covered in this section do not have software specific license terms.

Shunra Network Virtualization

Shunra Network Virtualization for HP LoadRunner is licensed per Load Generator and may only be used with HP LoadRunner for the purpose of performance testing and may only be used with the HP software for which it was originally licensed.

Shunra Network Virtualization for HP Performance Center is licensed per Load Generator and may only be used with HP Performance Center for the purpose of performance testing and may only be used with the HP software for which it was originally licensed.

Additional license terms
