

Hewlett-Packard Company
www.hp.com

Thank you for your interest in HP Identity Management software. The Identity Management suite includes the following products:

- Select Access
- Select Audit
- Select Federation
- Select Identity

The documentation for these products is included on the product media. Please refer to the Release Notes located in the root directory of the product media for the location of the product documentation. To review the documentation without a software license, please contact your HP or HP Partner representative. You can locate an HP representative from <http://www.managementsoftware.hp.com/contact/specialist.html>

Additional information about the HP Identity Management suite of products is available from www.hp.com/go/identity.
