Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
 - The number before the period identifies the major release number.
 - The first number after the period identifies the minor release number.
 - The second number after the period represents the minor-minor release number.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition, visit:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign-in. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated and new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

[Table 1](#) below lists the changes that were made to this document.

Table 1 Documentation changes

Chapter	Version	Changes
All	5.00	Deleted unneeded screenshots; revised associated text.
All	5.10	The <i>HP Configuration Management Administrator Publisher Guide</i> and the <i>HP Configuration Management Administrator Configuration Server Database Editor Guide</i> were consolidated into a new guide, the <i>HP Configuration Management Administrator User Guide (CM Admin Guide)</i> .
All	5.00	Changed all directory paths. The default directory paths for CM products have been changed to: <ul style="list-style-type: none">• Program Files\Hewlett-Packard\CM (Windows) And... <ul style="list-style-type: none">• HP/CM (UNIX)

Chapter	Version	Changes
All	5.10	<p>The <i>HP Configuration Management Application Manager Installation and Configuration Guide</i> and the <i>HP Configuration Management Application Self-service Manager Installation and Configuration Guide</i> were consolidated into one guide for each platform (UNIX and Windows).</p> <p>The consolidated guide is the <i>HP Configuration Management Application Manager and Application Self-service Manager Installation and Configuration (CM Application Manager and Application Self-service Manager Guide)</i>.</p>
Chapter 1	5.00	In this release, one version of the HP Configuration Management Distributed Configuration Server (CM Distributed Configuration Server) is offered; some references to this product's media have been removed.
Chapter 1	5.00	Page 16, Table 4, updated the directory structure of the HP media.
Chapter 1	5.00	<p>Page 16, Installation Media: removed references to the following products that are not supported in this release.</p> <ul style="list-style-type: none"> • HP Configuration Management Adapter for SSL (CM Adapter for SSL) • HP Configuration Management Staging Server (CM Staging Server) • HP Configuration Management Adapter (CM Adapter) • HP Configuration Management Operations Adapter (CM Operations Adapter) <p>Also, this release does not offer support for HP Configuration Management products on Mac OS X.</p>
Chapter 1	5.10	Page 18, updated Table 5, Configuration Management library: revised the titles of some guides; removed references to guides that no longer exist.
Chapter 1	5.00	Page 23, added information for a new CM product, CM Enterprise Manager.
Chapter 1	5.10	Page 23, added a Note regarding administrative Configuration Management tasks being performed by either the CM Portal or the CM Enterprise Manager.

Chapter	Version	Changes
Chapter 1	5.10	Removed all references to the CM Configuration Baseline Auditor; this product has been retired.
Chapter 1	5.10	Page 31, added a new section, CM Portal and CM Enterprise Manager, which will guide a CM administrator as to which product to use (CM Portal vs. CM Enterprise Manager) to complete various CM tasks.
Chapter 2	5.00	Removed references to, and information about installing the HP Configuration Management Portal on UNIX operating systems; this installation is not available in this release.
Chapter 2	5.10	Page 33, the title of this chapter (CM Configuration Server Installation for UNIX) was revised from <i>UNIX Installations</i> .
Chapter 2	5.00	Page 38, in the section, UNIX Pre-Installation Notes , added information regarding the UNIX <code>arp</code> utility.
Chapter 2	7.20	Page 38, in the section, UNIX Pre-Installation Notes , added information regarding Locales, Regions, and Code Sets .
Chapter 3	5.10	Page 49, the CM Portal installation materials have been removed from this chapter, which is now limited to the installation of the CM Configuration Server. The installation of the CM Portal has been moved to a stand-alone chapter, CM Portal Installation for Windows.
Chapter 4	5.10	Page 65, the CM Portal installation is detailed in this chapter, CM Portal Installation for Windows.
Chapter 5	5.10	Page 75, the CM Enterprise Manager installation is detailed in this chapter, CM Enterprise Manager Installation for Windows.
Appendix B	7.20	Page 83, added a new appendix, UNIX Locales, Regions, and Code Sets , which provides information on setting language and region values to avoid problems when importing and exporting database classes.

Support

You can visit the HP Software support web site at:

www.hp.com/go/hpsoftwaresupport

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online software support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require an active support contract. To find more information about support access levels, go to the following URL:

http://h20230.www2.hp.com/new_access_levels.jsp

To register for an HP Passport ID, go to the following URL:

<http://h20229.www2.hp.com/passport-registration.html>

1 Introduction

At the end of this chapter, you will:

- Be familiar with the HP Client Automation (HPCA) product suite.
- Know which HPCA media contain the installation files for each HPCA component.
- Have a high-level understanding of the function of the various HPCA components.

2 Configuration Server Installation for UNIX

At the end of this chapter, you will have:

- An understanding of the HP Client Automation Configuration Server (Configuration Server) system requirements for a UNIX environment.
- Installed the Configuration Server (either *silently* or via a *graphical user-interface* [GUI]) in a UNIX environment.

If your environment uses Core and Satellite servers, first read the *Core and Satellite Servers Getting Started Guide* as the installation, configuration, and troubleshooting information in that guide may override the information in this guide.

3 Configuration Server Installation for Windows

At the end of this chapter, you will have:

- An understanding of the HP Client Automation Configuration Server (Configuration Server) system requirements for a Windows environment.
- Installed the Configuration Server (either *silently* or via a *graphical user-interface* [GUI]) in a Windows environment.

If your environment uses Core and Satellite servers, first read the *Core and Satellite Servers Getting Started Guide* as the installation, configuration, and troubleshooting information in that guide may override the information in this guide.
