HP OpenView GlancePlus Pak Release Notes

Announcements

This document contains information about HP OpenView GlancePlus Pak for the HP-UX Application Release in the Summer of 2003. This release of GlancePlus Pak is supported on the 11.0 and 11.11 releases of HP-UX.

NOTE The name MeasureWare Agent for UNIX has been replaced with HP OpenView Performance Agent (OV Performance Agent or OVPA) for UNIX throughout this document. However, the process names and software components operationally remain MeasureWare Agent (MWA).

Refer to each product's Release Notes for system patch requirements. The Release Notes documents are in `/opt/perf/ReleaseNotes/`. Their filenames are:

- GlancePlus Release Notes: `Glance`
- HP OpenView Performance Agent Release Notes: `Mwa`

Refer to each product's documentation for information about the functionality of each product.

NOTE This release is not for use on 11.2x — different revisions of this product are built specifically for IPF/IA64.

This document contains important information that is not included in other printed materials or in online help.

What's New in This Version?

This release provides C.03.71.00 functionality. Please see the Release Notes for each product in `/opt/perf/ReleaseNotes/`.

Known Problems and Workarounds

The following requests remain open in this release. Refer to the “Patches and Fixes in This Version” section of this document for information about requests that have been fixed or addressed with patches.

To see the status of open requests, see “Online Documentation and Support” in the “Software Version Information and File Placement Plan” section of these Release Notes.

Request ID	Description

None.

Compatibility Information and Installation Requirements

Before installing GlancePlus Pak, be sure that your system meets these minimum requirements.

- System Requirements
  - — HP 9000 Series server or workstation
  - — HP 9000 Series 700 or 800
  - — 32 MB RAM, 64MB virtual memory
- Display Requirements

  The following is required for running the GlancePlus Motif interface (gpm):

  - — HP X-terminal or X-workstation display, minimum of 1280 x 1024 resolution and 8-color planes

  The following is required for running the GlancePlus character mode interface (glance):

  - — Terminals: HP 2392A, HP 700/44, HP 700/92, HP 700/94, VT100, or compatible terminal emulators, such as xterm, dtterm, or hpterm, under the X-Window system
- Disk Requirements — Total of 100 MB
  - — 50 MB in the `/opt/perf/` directory for first-time installations of GlancePlus and OV Performance Agent
  - — 50 MB in the `/var/opt/perf/` directory for OV Performance Server Agent
- Software Requirements
  - — HP-UX 11.0 and beyond with X-Windows libraries X11R6 and Motif libraries 2.1.
- Installation — Installation requirements as well as instructions for installation are documented in the *GlancePlus Pak Installation Guide*, located on the Web at:

  `http://ovweb.external.hp.com/lpe/doc_serv/`

  Select `glanceplus pak 2000`, the release version, c.03.71, the Installation Guide, and click **Retrieve**.
- Related Documentation:
  - — Refer to the following documents for additional information about how to use GlancePlus Pak:

    Access the following man pages by typing **`man <`*`man_page`*`>`**, such as **`man midaemon`**:

HP-UX Measurement Interface: `arm`, `midaemon`, `perfstat`, `ttd`, `ttd.conf`

— For information on accessing the documentation on the web, see “Online Documentation and Support” in the “Software Version Information and File Placement Plan” section in these Release Notes.

— To print an ASCII file, type:

```
lp -d<printer_name> filename
```

For example:

```
lp -dros1234 metrics.txt
```

Patches and Fixes in This Version

The following major requests were fixed in this release.

Request ID	Description
None	

Software Availability in Native Languages

GlancePlus and OV Performance Agent are localized into Japanese (ja_JP.SJIS). Refer to each product's Release Notes in `/opt/perf/ReleaseNotes/` for more information.

Software Version Information and File Placement Plan

Version Information

For a summary of version strings for installed performance tools, enter the command:

```
/opt/perf/bin/perfstat -v
```

File Placement Plan

The following is a list of directory locations for product files.

For a list of all files in the product, enter the command:

```
/usr/sbin/swlist -l file <bundle_name>
```

<*bundle_name*> = GlancePlus Pak bundle name on your system

Release Notes:

```
/opt/perf/ReleaseNotes/Glancepak
```

Executables including UI programs, daemons, and scripts:

```
/opt/perf/bin/
/opt/OV/bin/OpC/
/var/opt/OV/bin/OpC/GlancePak/
/var/opt/OV/conf/OpC/GlancePak/
```

Man pages:

```
/opt/perf/man/man1/
```

Default configuration and template files:

```
/opt/perf/newconfig/
```

Online Documentation and Support

Go to the HP OpenView eCare web site to access interactive technical support tools. The same information and tools used by HP OpenView phone support experts are now available at:

`http://support.openview.hp.com/`

- To view the status of customer requests:

  1. Go to the `Troubleshooting` window and select `search knowledge base for documents, known problems, & patches`.

  2. You can search for documents, known problems or patches in one of two ways:

     a. Search by keyword by filling in the pertinent information and clicking **`SEARCH`**.

     OR

     b. Search by document ID number, by selecting the `document id lookup` tab, entering the document ID number and clicking **`VIEW DOCUMENT`**.

- To view these or archived Release Notes and other documentation:

  1. Go to the `Using Products` window and select `user manuals`. This displays the `HP OpenView manuals` web site:

     `http://ovweb.external.hp.com/lpe/doc_serv/`

  2. Select `glanceplus pak 2000` in the `product` list box and the version, such as c.03.71 for this release. You will see the OS associated with the release version in the `os` list box.

  3. Select the document you want to view and click **`Retrieve.`**.
