## Documentation Updates

This guide's title page contains the following identifying information:

- Software Version number, which indicates the software version
- Document release date, which changes each time the document is updated
- Software release date, which indicates the release date of this version of the software

To check for recent updates or to verify that you are using the most recent edition, visit the following URL:

**<http://h20230.www2.hp.com/selfsolve/manuals>**

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Table 1 indicates changes made to this document for Version 7.80.

**Table 1 Document Changes for this Version**

<b>Chapter</b>	<b>Version</b>	<b>Change</b>
All	7.80	Rebranded for 7.80.

## Support

You can visit the HP Software support web site at:

**[www.hp.com/go/hpsoftwaresupport](http://www.hp.com/go/hpsoftwaresupport)**

This Web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online software support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract.

To find more information about access levels, go to:

**[http://h20230.www2.hp.com/new\\_access\\_levels.jsp](http://h20230.www2.hp.com/new_access_levels.jsp)**

To register for an HP Passport ID, go to:

**<http://h20229.www2.hp.com/passport-registration.html>**

# 1 Upgrading the HPCA Configuration Analyzer

Use the information in this guide to upgrade the HP Client Automation (HPCA) Configuration Analyzer to version 7.80.

The following HPCA Configuration Analyzer versions can be upgraded to version 7.80 using this guide:

- 4.x, 5. x, or 7.20

Refer to the *Configuration Analyzer Guide* for additional information.

Based on your current Configuration Analyzer version, see the following procedures to upgrade an existing Configuration Analyzer HPCA Configuration Analyzer Version 7.80:

- [To Migrate from Version 5.x, 7.20, or 7.50 on page 8](#)
- [To Migrate from Version 4.x on page 8](#)

## To Migrate from Version 4.x

- 1 Use the **Add or Remove Programs**, Control Panel applet to remove the Configuration Analyzer. Then, restart the computer.
- 2 Install the latest Configuration Analyzer using the HPCA 7.80 media. The installer is located in:

```
\extended_infrastructure\configuration_analyzer\ConfigurationAnalyzer.msi
```

The CA Configuration Analyzer is installed to the `\Configuration Analyzer` folder under the selected installation directory. For example, if you accept the default location, it is installed to:

```
C:\Program Files\Hewlett-Packard\CM\Configuration Analyzer
```

## To Migrate from Version 5.x, 7.20, or 7.50

The Configuration Analyzer supports a direct upgrade from versions 5.x, 5.1x, 7.20, and 7.50. The existing Configuration Analyzer does *not* need to be removed before running the latest installation. The installation media is on the 7.80 in the following location:

```
\extended_infrastructure\configuration_analyzer\ConfigurationAnalyzer.msi
```

The CA Configuration Analyzer is installed to the `\Configuration Analyzer` folder under the selected installation directory. For example, if you accept the default location, it is

installed to:  
C:\Program Files\Hewlett-Packard\CM\Configuration Analyzer

The Configuration Analyzer Database schema for Version 7.80 does not introduce any changes from Version 5.10, 5.11, 7.20, or 7.50. No database migration is required.
